

Badi H. Baltagi

Solutions Manual for Econometrics

With 14 Figures
and 3 Tables

Springer

Table of Contents

Preface	V
Chapter 2	
A Review of Some Basic Statistical Concepts	1
Chapter 3	
Simple Linear Regression	22
Chapter 4	
Multiple Regression Analysis	40
Chapter 5	
Violations of the Classical Assumptions	69
Chapter 6	
Distributed Lags and Dynamic Models	108
Chapter 7	
The General Linear Model: The Basics	137
Chapter 8	
Regression Diagnostics and Specification Tests	163
Chapter 9	
Generalized Least Squares	189
Chapter 10	
Seemingly Unrelated Regressions	203
Chapter 11	
Simultaneous Equations Model	227
Chapter 12	
Pooled Time-Series of Cross-Section Data	264

Chapter 13

Limited Dependent Variables 283

Chapter 14

Time Series Models 298
