

Michael Neugart

Nonlinear Labor Market Dynamics

Springer

Content

1	INTRODUCTION.....	1
2	NONLINEAR AND CHAOTIC ECONOMIC DYNAMICS.....	9
2.1	Earlier models revisited.....	9
2.1.1	Interaction and irregular dynamics.....	10
2.1.2	Overlapping generations and endogenous cycles.....	11
2.1.3	Growth models.....	14
2.1.4	The role of expectations.....	16
2.2	Evidence on chaos in economic dynamics.....	20
2.2.1	Tests for nonlinearities and chaos.....	20
2.2.2	Results.....	23
2.2.3	Some pitfalls and shortcomings.....	24
3	NONLINEAR LABOR SUPPLY AND REAL WAGE ADJUSTMENT.....	29
3.1	Beyond a linear and upward sloping labor supply.....	30
3.1.1	Stable preferences, budget constraints, and the supply of labor. . .	30
3.1.2	Labor supply and path dependent preferences.....	32
3.1.3	Empirical labor supply elasticities.....	34
3.2	A bare-bones model and labor market equilibria.....	36
3.3	Adjustment dynamics.....	39
	<i>Case 1 - Labor supply bends backwards.....</i>	<i>44</i>
	<i>Case 2 -An upward sloping labor supply curve with an upper bound..</i>	<i>56</i>
3.4	How well is the calibration?.....	60
3.5	An unstable Phillips curve and other policy implications.....	66
4	REAL WAGE ADJUSTMENT WITH A NONLINEAR LABOR DEMAND.....	69
4.1	Production functions, labor costs, and the demand for labor.....	69
4.1.1	Labor demand and varying mark-ups.....	70
4.1.2	Feedback from employment on labor costs.....	72
4.1.3	The production technology.....	76
4.2	Discontinuous labor demand and labor market equilibria.....	78
4.3	Adjustment dynamics.....	81
	<i>Case 3 - Real wage adjustment with a non-concave production function.....</i>	<i>85</i>
4.4	Policy implications.....	91
5	A NOTE ON RATIONALITY.....	93

6	WORKER FLOWS AND THE OCCURRENCE OF ENDOGENOUS CYCLES.....	103
6.1	The outflow from unemployment.....	104
	<i>Case 4 - Unemployment dynamics with a nonlinear outflow rate.....</i>	<i>106</i>
6.2	A calibrated version and evidence on worker flows.....	113
6.3	Is the natural rate a policy trap?.....	117
7	EMPLOYMENT DYNAMICS UNDER WAGE SETTING.....	119
7.1	The wage setting curve.....	120
7.1.1	Can the wage setting curve slope downwards?.....	122
7.1.2	A further look at the slope: The role of long term unemployment.....	124
7.2	A tentative view: employment dynamics in a 'hire and fire' economy.....	126
	<i>Case 5 - Employment dynamics with a U-shaped wage setting curve.....</i>	<i>130</i>
13	Evidence on the parameters of the model.....	139
7.4	Some consequences from flexible labor markets.....	141
8	TESTING FOR CHAOS IN GERMAN LABOR MARKET DATA... 143	
8.1	Filtering the data.....	143
8.2	Testing for nonlinearity and chaos.....	147
9	SUMMARY AND CONCLUDING REMARKS.....	153
	FIGURES.....	159
	TABLES.....	163
	REFERENCES.....	165
