Marco Runkel

Environmental and Resource Policy for Consumer Durables

Springer

Contents

Introduction 1

Definitions, Assumptions and Basic Model 11
2.1 Modeling Consumer Durables 11
2.1.1 Durable versus Nondurable Goods 11
2.1.2 Decay Function of Consumer Durables 13
2.1.3 Vintage Durable Goods 23
2.2 Basic Oligopoly Model without Pollution 23
2.2.1 Model Description and Market Equilibrium 23
2.2.2 Stationary State 35
2.2.3 Comparative Statics of the Long Run Market Equilibrium 42

Regulating Production Emissions of Consumer Durables . . . 47
3.1 The Model of Goering and Boyce (1999) 48
3.1.1 Model Description and Market Equilibrium 48
3.1.2 Market Equilibrium Revised 54
3.1.3 Second-Best Emissions Taxation 57
3.1.4 Second-Best Emissions Taxation Revised 60
3.2 Modified Model with Production Emissions 67
3.2.1 Model Description and First-Best Welfare Optimum . . . 67
3.2.2 Market Equilibrium and Laissez Faire 71
3.2.3 First-Best Regulation 78
3.2.4 Second-Best Taxation 81
3.3 Practicability of Durable Goods Regulation 83

Regulating Solid Waste of Consumer Durables 87
4.1 Durable Goods Markets with Commitment Ability of Producers 88
4.1.1 Model and Social Welfare Optimum 88
4.1.2 Market Equilibrium and Laissez Faire 95
4.1.3 First-Best Regulation 101

4.1.4 Second-Best Taxation 104
4.2 Durable Goods Markets without Commitment Ability of Producers 106
4.2.1 Model and Social Welfare Optimum 106
4.2.2 Market Equilibrium and Laissez Faire 110
4.2.3 First-Best Regulation 121
4.2.4 Second-Best Taxation 125
4.3 Implications for Practical Waste Policy 132

5 Recycling Policies for Consumer Durables 139
5.1 Durable Goods Markets with Exogenous Product Durability .. 140
5.1.1 Model and Efficient Allocation 140
5.1.2 Benchmark Market System 149
5.1.3 Market Failure and its Correction 154
5.2 Durable Goods Markets with Endogenous Product Durability . 156
5.2.1 Model and Efficient Allocation 156
5.2.2 Benchmark Market System 167
5.2.3 Market Failure and its Correction 172
5.3 Summary and Practical Considerations 180

6 Conclusion 185
