LIST OF FIGURES. . . . .	xi
PREFACE. . . . .	xiii
PROLOGUE: TALES OF MYROS: EMERGENCE OF A PRIMITIVE ECONOMY	
FROM AN ECONOMIC STATE OF NATURE. . . . .	1
CHAPTER 1: PREMISES AND AN OVERVIEW. . . . .	9
CHAPTER 2: MYROS AND OTHER CONCEPTS AND DEFINITIONS . . . .	15
I. Myros. . . . .	16
II. Myros Recovery Charges. . . . .	20
III. Human and Nonhuman Capital. . . . .	21
IV. A Glossary of Concepts and Definitions. . . . .	22
CHAPTER 3: THE MACROECONOMIC FRAMEWORK. . . . .	25
I. An Overview. . . . .	25
II. Constraints (or 'Conservation Laws') Imposed by the Pool of Fluid Capital. . . . .	31
III. The Determination of Asset Values. . . . .	34
IV. Aggregate Demand and Supply. . . . .	38
V. Macroeconomic Equilibrium. . . . .	40
CHAPTER 4: INTEREST AND MONEY. . . . .	43
I. Factors Making for the Existence of Interest. . . . .	44
II. Determination of Money and Natural Rates of Interest . . . . .	46
III. A World with Fiat Money. . . . .	55
IV. The Concept of Velocity and the Demand for Money. . . . .	57
V. Power of the Monetary Authority. . . . .	59
VI. The Commercial Paper Market. . . . .	61
VII. Some Notes on Monetary Policy. . . . .	62
CHAPTER 5: PRODUCTION AND INVESTMENT. . . . .	65
I. Capital and Production. . . . .	66

- II. From Production to Investment . . . . . 69
- III. Roles of the Money and Natural Rates of Interest . . . . . 81
- IV. Financing of Investment: An Illustration . . . . . 81
  
- CHAPTER 6: THE GENERAL PRICE LEVEL AND INFLATION. . . . . 85
  - I. Defining the General Price Level . . . . . 85
  - II. Problems Arising from Excessive Monetization of Assets. . . . . 94
  - III. The General Price Level and the Natural Rate of Interest . . . . . 97
  - IV. Equilibrium in the Natural and Money Rates of Interest . . . . . 98
  
- CHAPTER 7: CAPITAL VALUES, WEALTH, AND RELATED TOPICS . . . 101
  - I. The Aggregate Wealth of an Economy. . . . . 101
  - II. Money As Wealth and Real-Balance Effects. . . . . 102
  - III. Some Implications of Old Masters As a Store of Value. . . . . 103
  - IV. Taxation of Capital Gains .; . . . . 105
  - V. Forced Saving and Investment. . . . . 108
  - VI. More on Excess Monetization of Assets. . . . . 110
  - VII. Loan Defaults and the Stock of Money. . . . . 111
  - VIII. Crowding-Out . . . . . 112
  - IX. Burden of the National Debt . . . . . 116
  - X. Ricardian Equivalence. . . . . 117
  - XI. Commodity Money. . . . . 118
  - XII. Fluid Capital and the Gold Standard . . . . . 119
  - XIII. Demonetization and Monetization of Economies. . . . . 123
  - XIV. Economic Growth With Deflation: 1873-1896 in the U.S. . . . . 126
  
- CHAPTER 8: MACROECONOMIC EQUILIBRIUM AND EMPLOYMENT . . 129
  
- CHAPTER 9: CAPITAL THEORY IN PERSPECTIVE . . . . . 139
  - I. Schumpeter. . . . . 139
  - II. Keynes. . . . . 142
  - III. Irving Fisher. . . . . 144
  - IV. Bohm-Bawerk . . . . . 145
  - V. Jevons and Wicksell . . . . . 146
  - VI. Capital As Embedded (or Stored) Labor. . . . . 147
  - VII. Capital Theory As the Economics of Time. . . . . 149
  - VIII. Capital Accounting. . . . . 151
  - IX. Capital and Nonrenewable Natural Resources. . . . . 154
  
- CHAPTER 10: OPPORTUNITY AND SUNK COSTS. . . . . 157
  - I. Opportunity Costs. . . . . 157
  - II. The Measurement of Unit Incremental Cost . . . . . 160
  - III. Sunk Costs. . . . . 161

CHAPTER 11: TRADE, TRANSFERS, AND MONETARY OVERHANGS . . .	165
I. Trade and Exchange Rates . . . . .	165
II. Monetary Overhangs and Capital Levies . . . . .	167
III. Wealth Transfers and Monetary Overhangs: A Stylized Analysis . . . . .	170
IV. Policies for Eliminating a Monetary Overhang: The Case of German Reunification . . . . .	178
V. The German Reunification: An Assessment . . . . .	183
 CHAPTER 12: QUESTIONS RELATED TO CONSUMPTION AND SAVING . . . . .	185
I. The Macroeconomics of Retirement Saving and Consumption . .	185
II. Questions Related to Position Goods . . . . .	187
III. Questions Related to Engel Curves and Income Elasticities . . . .	190
IV. The Hierarchical Nature of the Pool of Fluid Capital . . . . .	192
 CHAPTER 13: QUESTIONS RELATED TO ECONOMIC GROWTH . . . . .	195
I. The General Mechanics of Economic Growth . . . . .	195
II. Some Basic Truths Concerning Economic Development . . . . .	197
III. Keynes and Economic Bliss . . . . .	198
IV. The Endogenous Nature of Economic Growth . . . . .	199
V. The Role of Technological Change . . . . .	200
VI. Investment in Research and Development . . . . .	200
VII. Economic Growth in Reverse: Large-Scale Disasters in Low- Income Economies . . . . .	201
VIII. Economic Growth and Different Stages of Development . . . . .	204
 CHAPTER 14: THEMES AND COUNTER THEMES: FLUID CAPITAL IN RETROSPECT . . . . .	205
 APPENDIX I: ON THE ROLE OF THEORY IN ECONOMIC ANALYSIS . . . . .	213
I. Introduction . . . . .	213
II. Economic Theory in Action: The Theory of Consumer Choice . . . .	214
III. Modeling Real-Time Dynamics . . . . .	217
IV. Conclusions . . . . .	220
 APPENDIX II: INVESTMENT FUNCTIONS DONT NECESSARILY SLOPE DOWNWARD . . . . .	223
I. Introduction . . . . .	223
II. The Relationship Between Investment and the Rates of Interest . .	224
III. Further Discussion and Conclusions . . . . .	227
 APPENDIX III: PRODUCTIVITY IMPLICATIONS OF THE OIL PRICE INCREASES OF THE 1970S . . . . .	229

I.	Introduction . . . . .	229
II.	Instantaneous Effects of the Oil Price Increases. . . . .	230
III.	Some Real-Time Dynamics . . . . .	232
IV.	Implications for Subsequent Productivity Growth. . . . .	233
V.	Financial Recycling . . . . .	236
VI.	Conclusion. . . . .	237

APPENDIX IV: ADDITIONAL TALES INVOLVING A PRIMITIVE

ECONOMY. . . . .	239
BIBLIOGRAPHY. . . . .	249
INDEX. . . . .	259
