

Stephanie M. Stolz

Bank Capital and Risk-Taking

The Impact of Capital Regulation,
Charter Value, and the Business Cycle

4y Springer

Contents

1	Introduction	1
2	Theoretical Literature	7
2.1	Moral Hazard in Banking	7
2.2	Capital Regulation in Models of Moral Hazard	10
2.3	The Disciplining Effect of Charter Value	13
2.4	A Model with Charter Value and Endogenous Capital	16
2.5	Further Considerations	21
2.6	Hypotheses on ...	25
2.6.1	Capital and Risk Adjustments after an Increase in Capital Requirements	25
2.6.2	Capital and Risk Adjustments over the Business Cycle	27
2.6.3	The Disciplining Effect of Charter Value on Risk-Taking	28
3	Capital and Risk Adjustments after an Increase in Capital Requirements	30
3.1	Introduction	30
3.2	The Empirical Model	32
3.2.1	A Simultaneous Equations Model with Partial Adjustment	33
3.2.2	Hypotheses	34
3.2.3	Methodology	35
3.2.4	Measures of Capital and Risk	38
3.2.5	Variables Affecting the Optimum Levels of Capital and Risk.	40
3.3	Data Description	42
3.4	Regression Analysis	47
3.4.1	Dummy Variable Approach in a Pooled Regression	47
3.4.2	Subsample Approach	53
3.4.3	Rolling Window Approach	56

3.4.4	Dummy Variable Approach in a Dynamic Panel Regression	< 59
3.5	Conclusion	63
3.6	Appendix 1: Descriptive Statistics	64
3.7	Appendix 2: Robustness Checks	68
4	Capital and Risk Adjustments over the Business Cycle	78
4.1	Introduction	78
4.2	The Empirical Model	80
4.2.1	A Partial Adjustment Model	80
4.2.2	Hypotheses	83
4.2.3	Methodology ;	84
4.2.4	Measures of the Capital Buffer, Regulatory Capital, Risk- Weighted, Assets, and Business Cycle Fluctuations	85
4.2.5	Bank-Specific Control Variables	86
4.3	Data Description	88
4.4	Regression Analysis •	90
4.4.1	Adjustments in the Capital Buffer	92
4.4.2	Asymmetries	94
4.4.3	Adjustments in Regulatory Capital and Risk-Weighted Assets	97
4.4.4	Robustness Checks	102
4.5	Conclusion	103
4.6	Appendix 1: Descriptive Statistics	104
4.7	Appendix 2: Robustness Checks	107
5	The Disciplining Effect of Charter Value on Risk-Taking	111
5.1	Introduction	111
5.2	The Empirical Model	113
5.2.1	A Two-Step Dynamic Model	114
5.2.2	Hypotheses	114
5.2.3	Methodology	115
5.2.4	Definitions of Charter Value and Risk-Taking	116
5.2.5	Bank-Specific and Macroeconomic Control Variables	118
5.3	Data Description	121
5.4	Regression Analysis	122

	<i>Contents</i>	XI
5.4.1	Charter Value	123
5.4.2	Risk-Taking	125
5.4.3	Robustness Checks	129
5.5	Conclusion	132
5.6	Appendix 1: Descriptive Statistics	134
5.7	Appendix 2: Robustness Checks	139
6	Final Remarks	140
	References	144
