Contents

Managing Complexity: An Introduction

Dirk Helbing, Stefan Lammer.....

Part I Markets and Business

Market Segmentation: The Network Approach

Jorg Reichardl, Stefan Bornhoklt.....19

Managing Autonomy and Control in Economic Systems •

Markus Christen, Georges Bongard. Aitila Pausiis, Norberi Stoop.
Ruedi Stoop.....37

Complexity and the Enterprise: The Illusion of Control

Karl G. Kempf.....57

Part II Logistics and Production

Benefits and Drawbacks of Simple Models for Complex
Production Systems

Oliver Rose.....91

Logistics Networks: Coping with Nonlinearity and Complexity

Karsten Peters, Thomas SeideL Stefan Lammer; Dirk Helbing.....119

Repeated Auction Games and Learning Dynamics in
Electronic Logistics Marketplaces

Miguel A. Figliozi. Ham S. Mahmassani, Patrick Jail let.....137

Part III Traffic

Decentralized Approaches to Adaptive Traffic Control , <i>Arne Resting, Martin Schonhof, Stefan Lammer, Martin Treiber, Dirk Helbing.</i>	179
---	-----

Critical Infrastructures Vulnerability: The Highway Networks <i>Limor Issacharoff; Stefan Lammer, Vittorio Rosato, Dirk Helbing.</i>	201
--	-----

Part IV Critical Infrastructures and Systemic Risks

Trade Credit Networks and Systemic Risk <i>Stefano Battiston, Domenico Belli Gatti, Mauro Gallegali.</i>	219
--	-----

A Complex System's View of Critical Infrastructures <i>Vittorio Rosato., Inge Simonsen, Sandro Meloni, Limor Issacharoff] Karsten Peters, Nils von Festenberg, Dirk Helbing.</i>	241
--	-----

Part V Information Systems

Bootstrapping the Long Tail in Peer to Peer Systems <i>Bernardo A. Huberman, Fang Wu.</i>	263
---	-----

Coping with Information Overload through Trust-Based Networks <i>Frank E. Waller-, Stefano Battiston, Frank Schweitzer.</i>	273
---	-----

Part VI Conflict and Consensus

Complexity in Human Conflict <i>Neil F. Johnson.</i>	303
--	-----

Fostering Consensus in Multidimensional Continuous Opinion Dynamics under Bounded Confidence <i>Jan Lorenz.</i>	321
---	-----

Multi-Stakeholder Governance - Emergence and Transformational Potential of a New Political Paradigm <i>Bertrand de La, Chapelle.</i>	335
--	-----

Part VII Network Design

Evolutionary Engineering of Complex Functional Networks*
Pablo Kaluza, Hiroshi Kori,-Alexander S. Mikhailov. 351

Path Length Scaling and Discrete Effects in Complex Networks
*Julian Sienkievncz. Agata, Fronczak. Piotr Fronczak, Krzysztof
Suchecki. Janusz A. Holyst.* 369
