Competition, Innovation, and Antitrust

A Theory of Market Leaders
and Its Policy Implications

4y Springer

Contents

Preface	vii
1. Competition, Leadership and Entry	1
1.1 A Simple Model of Competition in Quantities	4
1.1.1 Monopoly and Antitrust Issues	5
1.1.2 Nash Equilibrium	8
1.1.3 Marshall Equilibrium	9
1.1.4 Stackelberg Equilibrium •	10
1.1.5 Stackelberg Equilibrium with Endogenous Entry	12
1.2 Increasing Marginal Costs and Product Differentiation	15
1.2.1 U-shaped Cost Functions	16
1.2.2 Product Differentiation	18
1.3 A Simple Model of Competition in Prices	20
1.4 A Simple Model of Competition for the Market	25
1.4.1 The Arrow's Paradox	27
1.4.2 Innovation by Leaders	31
1.5 Conclusions	34
1.6 Appendix	36
2. Strategic Commitments and Endogenous Entry	41
2.1 Market Structure	44
2.2 Nash Equilibrium	48
2.3 Marshall Equilibrium	49
2.4 Competition in Quantities, in Prices and for the Market	50
2.4.1 Competition in Quantities	50
2.4.2 Competition in Prices	54
2.4.3 Competition for the Market	58
2.5 Strategic Investments	59
2.5.1 The Fudenberg-Tirole Taxonomy of Business Strategies	61
2.5.2 Strategic Commitments with Endogenous Entry	63
2.6 Cost Reductions and Signaling	66
2.7 Advertising and Demand Enhancing Investments	70
2.8 Debt and the Optimal Financial Structure	72
2.9 Network Externalities and Two-Sided Markets	76

2.10	Bundling	79
2.11	Vertical Restraints	82
2.12	Price Discrimination	84
2.13	Antitrust and Horizontal Mergers	87
2.14	Conclusions	89
3.	Stackelberg Competition and Endogenous Entry	91
3.1	Stackelberg Equilibrium	94
3.2	Stackelberg Equilibrium with Endogenous Entry	97
3.3	Competition in Quantities, in Prices and for the Market	100
3.3.1	Competition in Quantities	100
3.3.2	Competition in Prices	106
3.3.3	Competition for the Market	108
3.4	Asymmetries, Multiple Leaders and Multiple Strategies	109
3.4.1	Asymmetries Between Leader and Followers	109
3.4.2	Multiple Leaders	110
3.4.3	Endogenous Leadership	113
3.4.4	Multiple Strategies	114
3.4.5	General Profit Functions	116
3.5	Antitrust and Collusion	118
3.6	State-Aids and Strategic Export Promotion	120
3.7	Privatizations	123
3.8	Conclusions	124
3.9	Appendix	125
4.	Dynamic Competition and Endogenous Entry	131
4.1	A Simple Patent Race with Contractual Costs of R&D	135
4.1.1	Endogenous Entry	138
4.1.2	Welfare Analysis	141
4.2	Dynamic Competition for the Market	142
4.2.1	Nash Equilibrium	143
4.2.2	Marshall Equilibrium	144
4.2.3	Stackelberg Equilibrium	144
4.2.4	Stackelberg Equilibrium with Endogenous Entry	146
4.2.5	Non-drastic Innovations	148
4.2.6	Strategic Commitments	150
4.3	Sequential Innovations	151
4.3.1	Endogenous Value of Innovations	152
4.3.2	Endogenous Technological Progress	155
4.4	Competition in the Market and Competition for the Market	159
4.5	Conclusions	162
4.6	Appendix	165

5. Antitrust and Abuse of Dominance	171
5.1 The Traditional Approaches to Abuse of Dominance	174
5.1.1 The Chicago School	174
5.1.2 The Post-Chicago Approach	176
5.2 The Theory of Market Leaders and Endogenous Entry	178
5.2.1 Competition in the Market and Policy Implications . . .	179
5.2.2 Competition for the Market and Policy Implications . .	186
5.3 A Digression on IPRs Protection	189
5.3.1 Patents in Dynamic Sectors and Innovations	190
5.3.2 Open-Source Innovations	191
5.3.3 Conclusions on IPRs Protection	194
5.4 Reforming Antitrust	195
5.4.1 Efficiency Defense	196
5.4.2 Predatory Pricing	197
5.4.3 Bundling	201
5.4.4 Intellectual Property Rights	203
5.5 Conclusions	204
6. Microsoft Economics	207
6.1 The Software Market	208
6.1.1 Network Effects	210
6.1.2 Multi-sided Platforms . . .	212
6.1.3 Microsoft	215
6.2 The Antitrust Cases	218
6.2.1 The US Case	218
6.2.2 The EU Case	221
6.3 Is Microsoft a Monopolist?	223
6.3.1 Why Is the Price of Windows so Low?	225
6.3.2 Does Microsoft Stifle Innovation?	228
6.4 Bundling	230
6.4.1 Strategic Bundling	232
6.4.2 Technological Bundling	234
6.5 Intellectual Property Rights	235
6.5.1 Patents, Trade Secrets and Interoperability	236
6.5.2 Licenses and Standards	238
6.6 Conclusions	240
7. Epilogue	243
7.1 Empirical Predictions of the Theory of Market Leaders	243
7.2 Implications for Business Administration	252
7.3 Implications for Economic Theory	252
7.4 Conclusions	255
8. References	257
