

# Technological Innovation Across Nations

# Contents

<b>Introduction</b> .....	1
Marina van Geenhuizen, Chihiro Watanabe, Vinnie Jauhari, Enno Masurel	
1    Introduction .....	1
2    Content of the Book .....	5
References .....	9
<b>Part I Applied Studies: Adoption of Information Technology in National Institutional Systems</b>	
<b>An Empirical Analysis of the Institutional System's Effects on the Development of China's Personal Computer Industry—From Inertia to Innovation</b> .....	13
Shanyu Lei, Masanobu Kita, Chihiro Watanabe, and Yuji Tou	
1    Introduction .....	14
1.1    The Effect of Initial Inertia on the Resulting Trajectory of China's PC Industry .....	14
1.2    Sources of High Performance in China during the PC Industry's Initial Inertia .....	14
1.3    Previous Research .....	17
2    Analytical Framework: Trajectory of PC Development and Diffusion .....	19
2.1    Dynamic Learning Coefficients and Diffusion of PCs ...	19
2.2    Price Decline Resulting from the Import of PC Parts and International Competition .....	20
2.3    Spillover Effect from Imported PC Parts .....	22
2.4    Influence of Price Competition .....	22
2.5    Elasticity of PCs to GDP .....	22
3    Empirical Analysis .....	26
3.1    Trends in PC Prices .....	26
3.2    Dynamic Learning Coefficient in China's PC Technology	28

3.3	Price Change Due to Imported PC Parts and International Competition .....	31
3.4	Trends in Creating Functionality of PC Innovation .....	33
4	Conclusions .....	36
	References .....	37
<b>An Empirical Analysis of the Coevolution of China's Institutional System and Rapidly Growing PC Sector .....</b>		<b>41</b>
Chihiro Watanabe, Shanyu Lei, Akihisa Yamada, and Masanobu Kita		
1	Introduction .....	42
2	China's Distinct Institutional Characteristics .....	46
3	Analytical Framework .....	49
3.1	Changes in the Pace of PC Development and Diffusion ..	49
3.2	Institutional System Characteristics Determining PC Development and Diffusion .....	51
4	Empirical Analysis .....	52
4.1	Multiplier Effects of Phased Development for the Enhancement of PC Development and Diffusion .....	52
4.2	Coevolution of Rapidly Growing PC Development and Institutional Characteristics in Enhancing PC Innovation .	54
5	Conclusions .....	60
	References .....	61
	Appendix: PC Development Trajectory in 24 Countries (1981–2002) ....	63
<b>Institutional Context for IT Use in the Automotive Industry: A Case Study on the Market Leader in India's Passenger Vehicle Sector .....</b>		<b>65</b>
Vinnie Jauhari		
1	Introduction .....	65
2	Global Scenario .....	66
3	Value Chain Analysis of the Automotive Industry .....	66
4	The Use of IT in an Organizational Framework .....	70
5	The Context of India's Automotive Industry .....	76
6	IT in the Broader Perspective of Technology Development .....	80
7	Information Technology at Maruti Udyog .....	81
7.1	Information Management at Maruti Udyog .....	83
7.2	Information Resources .....	85
7.3	Observations of IT Application at Maruti Udyog .....	85
7.4	Reaching Out to Customers .....	88
7.5	IT and Internet Culture .....	88
8	Conclusions and Challenges .....	89
	References .....	92

<b>Information Technology and Changing Institutional Systems as They Shift from an Industrial to an Information Society: An Initial Comparative Analysis of the USA, Japan, and China</b> . . . . .		95
Charla Griffy-Brown, Bing Zhu, and Jianbin Jin		
1	Introduction . . . . .	95
2	Theoretical Framework . . . . .	97
3	Methodology and Data Collection . . . . .	99
4	A Qualitative Analysis of Institutional Systems in the USA, Japan and China for Comparing the Role of IT . . . . .	99
4.1	Institutional Change in Japan . . . . .	100
4.2	Institutional Change in the USA . . . . .	103
4.3	Institutional Change in China . . . . .	105
5	Comparison of Information Technology Use in the USA, Japan, and China: B2B and IT Use in Business Operations as an Indicator of Institutional Change . . . . .	106
5.1	IT and Institutional Change in the USA . . . . .	106
5.2	IT and Institutional Change in Japan . . . . .	107
5.3	IT and Institutional Change in China . . . . .	111
6	Conclusion: Summary Comparison of Institutional Systems in Japan, the USA, and China in Effectively Leveraging IT . . . . .	115
	References . . . . .	117
<b>Analyzing the Export Intensity of Electronics Firms in India</b> . . . . .		121
Vinnie Jauhari		
1	Introduction . . . . .	121
2	Objectives . . . . .	122
3	Review of the Literature . . . . .	123
3.1	Proposed Model for Exploring Export Intensity of Electronics Firms in India . . . . .	124
3.2	Proposed Hypotheses for the Study . . . . .	125
4	Methodology . . . . .	126
5	The Institutional Context of India's Electronics Industry . . . . .	126
6	Division of Electronics Output between the Public and Private Sector . . . . .	128
6.1	Comparative Segment Exports for the Years 1993–2002 . . . . .	129
6.2	Findings and Analysis . . . . .	129
6.3	Tobit Results for Electronics Firms in India . . . . .	130
6.4	Export Intensity of Domestic Firms . . . . .	131
7	Conclusions and Implications . . . . .	133
	References . . . . .	135

## **Part II Applied Studies: Institutional Systems, Entrepreneurship, Knowledge Transfer and Learning**

<b>Growth of Technology Incubators: An Evolutionary Perspective</b> .....	141
Marina van Geenhuizen and Danny Soetanto	
1 Introduction .....	142
2 The Evolutionary Development of Incubators .....	143
3 Factors Influencing Incubator Growth .....	145
4 Structure of the Empirical Study .....	148
5 Results of the Analysis .....	151
6 Discussion .....	153
References .....	155
 <b>The Relationship between Universities of Professional Education and SMEs: Room for Improvement</b> .....	159
Enno Masurel and Frans Werkhoven	
1 Introduction .....	160
2 Setting the Scene .....	160
3 Universities of Professional Education Versus Traditional Universities in the Netherlands .....	162
4 Public Knowledge Institutions and SMEs .....	163
5 Data Collection .....	164
6 Empirical Results .....	166
7 Conclusion and Recommendations .....	172
References .....	173
 <b>Small Biotechnology Industry and Institutional Transformation: A Case Study of The Netherlands</b> .....	177
Marina van Geenhuizen	
1 New Business Opportunities and Institutional Constraints .....	177
2 Action Plan Life Sciences .....	180
3 The Biotechnology 'Landscape' in the Netherlands .....	181
4 Biotechnology Developments from a Policy Perspective .....	185
5 Institutional Transformation? .....	189
6 Supportive Policies for Later Growth Stages .....	191
7 Discussion .....	192
References .....	193
 <b>Index</b> .....	195
