M. Hatanaka, H. Yamada

Co-trending:

A Statistical System Analysis of Economic Trends

Springer

Contents

Preface v

1 Introduction 1

1.1 Motivation and Results of the Research 1

1.2 Review of the Literature 5

1.3 Exploration of DifferentiApproaches 6

1.4 Notations 7

2 Co-trending 8

2.1 Co-trending in the Non-parametric Approach 9

2.2 Co-trending in the Parametric Approach 10

2.3 Trend Functions 13

2.4 Co-trending and Co-breaking 13

2.5 A Survey on the Direct and the Indirect Modelling of Trend 14

3 Statistics from the Data Covariance Matrix 16

3.1 Three-way Decomposition of the n-Dimensional Space 17

3.2 Group j 18

3.3 Group 2 19

3.4 Group 1 21

3.5 An Approximation of *P(X)* 23

3.6 Plan for the Rest of the Book 23

4 Principal Components 25

4.1 Group _L, *i*= \,...,*n* - *r* 26

4.2 Group 2, *i* = *n* - *r* + 1,..., *n* - *r*\, r_2 > 0 27

4.3 Group *l,i* = *n*-*r*\ +],..., «, r, >0 27

5 Unit Root Tests 28

5.1 Univariate Unit Root Test 29

5.2 Group ±: The Case Where $B_{\pm}TJ_{X:}J$ is not a Cointegration Vector 31

5.3 Group J_: The Case Where fij_?7j_,, is a Cointegration Vector 31

5.4 Group 2: The Case Where $r_2 = 1$, and Group 1 . . . 32
5.5 Multivariate Unit Root Test . . . 33
5.6 Group 2: The Case Where $r_2 > 2$ . . . 35
5.7 Mistaken Constituents of Groups . . . 35
5.8 Supplement on the Martingale Covariance . . . 37
Trend Tests . . . 39
6.1 Discrimination Between Group 1 and Group ± with $B_{\pm}?]_{x},i$ as a Cointegration Vector . . . 40
6.2 Failure of the Standard Trend Tests in Discriminating Groups J_ and 2 . . . 40
6.3 Test Statistic and Limit Distribution for the Discrimination Between Group 2 and Group ± with $B\pm rj_{\pm}j$ not in the Cointegrating Space . . . 41
6.4 Reduced Rank Regression of X on SH . . . 43
6.5 A Finite Sample Analysis of the Reduced Rank Regression . . . 44
6.6 Asymptotic Analyses of the Reduced Rank Regression . . . 47
6.7 Data-Dependent Critical Value . . . 49
6.8 Mistaken Constituents of the Groups X and 2 . . . 51
Sequential Decision Rule . . . 55
7.1 Grouping Method . . . 55
7.2 Sequential Decision Rule . . . 57
7.3 Tests of a Grouping Method . . . 57
7.4 Justification of the Sequential Decision Rule . . . 59
7.5 Supplement . . . 61
Simulation Studies . . . 64
8.1 DGP . . . 64
8.2 Details of the Trend Test for 1(0) . . . 67
8.3 A Table of Asymptotic Probabilities . . . 67
8.4 Results of Simulation Studies . . . 72
8.5 Empirical Example . . . 75
Mathematical Proofs . . . 77
A.I Mathematical Proofs of Propositions and Lemmas in Chapter 2 . . . 77
A.2 Mathematical Proofs of Propositions and Lemmas in Chapter 3 . . . 77
A.3 Mathematical Proofs of Propositions and Lemmas in Chapter 4 . . . 82
A.4 Mathematical Proofs of Propositions and Lemmas in Chapter 5 . . . 83
A.5 Mathematical Proofs of Propositions and Lemmas in Chapter 6 . . . 92

B OLS Inference on the Matrix *B* 98
B.1 The Case Where $r_2 > 0$ 99
B.2 The Case Where $r_2 = 0$ 101
B.3 Estimation of the VAR, (B.3) 102
B.4 Estimation of C(1), *A*, and C'(1) 103
B.5 Estimation of G, G'_t 104
C Determination of the Co-breaking Rank 105
C.1 The Number of Common Breaks 105
C.2 Detrended Covariance Matrix 106
C.3 *UURT* 107
C.4 *MURT* 108
C.5 *TRT* 109
Notes 111
