Probability in Banach Spaces

Proceedings of the First International
Conference on Probability in Banach Spaces,
20–26 July 1975, Oberwolfach

FB Mathematik TUD

58166790

Edited by A. Beck

Fachbereich Mathematik
Technische Hochschule Darmstadt
Bibliothek

Inv.-Nr. B 15465

Springer-Verlag
Berlin · Heidelberg · New York 1976

Contents

<u>Charles R. Baker</u> : Absolute continuity and applications to information theory.....	1
<u>Anatole Beck</u> : Cancellation in Banach spaces.....	13
<u>Antoine Brunel and Louis Sucheston</u> : On sequences invariant under spreading in Banach spaces.....	21
<u>S. D. Chatterji</u> : Vector-valued martingales and their applications.....	33
<u>Mark J. Christensen and A. T. Bharucha-Reid</u> : Algebraic models for Gaussian measures on Banach spaces.....	53
<u>X. Fernique</u> : Evaluations de processus Gaussiens composes.....	64
<u>D. J. H. Garling</u> : Functional central limit theorems in Banach spaces.....	85
<u>Daniel P. Giesy</u> : Strong laws of large numbers for independent sequences of Banach space-valued random variables.....	89
<u>Evarist M. Giné</u> : Some remarks on the central limit theorem in $C(S)$	101
<u>Marjorie G. Hahn</u> : What second-order Lipschitz conditions imply the CLT?....	107
<u>Naresh C. Jain</u> : Central limit theorem in a Banach space.....	113
<u>J. Kuelbs</u> : The law of the iterated logarithm for Banach space valued random variables.....	131
<u>Hui-Hsiung Kuo</u> : Distribution theory on Banach space.....	143
<u>S. Kwapien</u> : A theorem on the Rademacher series with vector valued coefficients.....	157
<u>V. Mandrekar</u> : Central limit problem on L_p ($p \geq 2$) I. Lèvy-Khinchine representation.....	159
<u>Michael B. Marcus</u> : Some new results on central limit theorems for $C(S)$ -valued random variables.....	167
<u>W. J. Padgett and R. L. Taylor</u> : Almost sure convergence of weighted sums of random elements in Banach spaces.....	187
<u>Gilles Pisier</u> : Sur la loi du logarithme itere dans les espaces de Banach.....	203

<u>J. Rosiński</u> : Invariance principle for Banach space valued random variables and under random partitions.....	211
<u>Hiroshi Sato</u> : Banach support of a probability measure in a locally convex space.....	221
<u>R. L. Taylor and W. J. Padgett</u> : Weak laws of large numbers in Banach spaces and their extensions.....	227
<u>K. Urbanik</u> : Decomposability properties of probability measures on Banach spaces.....	243
<u>Peter Warren and Joseph Howell</u> : A strong law of large numbers for orthogonal Banach space-valued random variables.....	253
<u>A. Weron</u> : On weak second order and Gaussian random elements.....	263
<u>W. A. Woyczyński</u> : Asymptotic behavior of martingales in Banach spaces.....	273
Problems.....	285
