

John Cowell

Essential XHTML™ *fast*

Creating Dynamic Web Sites
with XHTML and JavaScript

Springer

Contents

1. WHY DO I NEED XHTML?	1
Introduction.....	2
Why switch to XHTML?.....	2
What do I need?.....	3
Is this book for you?.....	4
How to use this book.....	5
Don't type!.....	6
2. XML AND XHTML	7
Introduction.....	8
HTML versions.....	8
What is XML?.....	9
What is XHTML?.....	11
Tags, elements and attributes.....	11
XML rules.....	12
What is JavaScript?.....	13
Getting started.....	14
3. CREATING XHTML DOCUMENTS	15
Introduction.....	16
Starting an XHTML document.....	16
The XML statement.....	16
The DOCTYPE statement.....	18
The namespace declaration.....	20
Combining namespaces.....	21
The html element.....	24
White space.....	24
The head element.....	25
The title element.....	25
The meta element.....	26
The base element.....	26
The body element.....	26
Validating the document.....	27
The p element.....	29
Other paragraph types.....	30

4. FORMATTING DOCUMENTS.....	33
Introduction.....	34
Headings.....	34
Line breaks.....	35
Inserting lines.....	36
Colours and Fonts.....	37
Setting the background colour.....	38
Setting the text colour.....	38
Setting the font.....	39
Lists.....	39
Nesting lists.....	41
Definition lists.....	42
5. CREATING LINKS.....	45
Introduction.....	46
What is a URL?.....	46
The protocol identifier.....	47
The Web server.....	47
The folder and filename.....	47
The a element.....	48
Absolute and relative URLs.....	48
Absolute URLs.....	48
Relative URLs.....	49
Server relative URLs.....	51
Links within a document.....	51
Email links.....	52
6. CREATING AND USING TABLES.....	53
Introduction.....	54
Creating tables.....	54
Formatting tables.....	57
Formatting cells.....	62
The align and valign attributes.....	62
The colspan and rowspan attributes.....	63
Grouping table elements.....	64
The colgroup element.....	67
Stylesheets.....	68
7. WORKING WITH IMAGES.....	69
Introduction.....	70
Image Formats.....	70

GIF files.....	70
JPEG files.....	72
PNG files.....	72
Which format should I use?.....	73
Minimizing file size.....	73
Displaying images.....	74
Linking from an image.....	75
Imagemaps.....	75
Defining Rectangles.....	77
Defining Circles.....	78
Defining Polygons.....	78
Defining the default region.....	78
Activating the map.....	79
Client and Server side maps.....	79

8. CASCADING STYLE SHEETS.....81

Introduction.....	82
Types of style sheets.....	83
Embedding a style sheet.....	83
Style sheet codes.....	84
Linking to a style sheet.....	86
Applying styles to more than one element.....	88
In-line formatting.....	89
Classes and IDs.....	89
Creating and using IDs.....	90
Creating and using classes.....	91
Creating a style sheet.....	92
Font properties.....	92
Font characteristics.....	94
Text properties.....	96
The margin property.....	97
Colour properties.....	98
Box properties.....	98
Changing anchor colours.....	101
Positioning attributes.....	102
Using layers.....	105
Media types properties.....	107
Changing the background.....	108
Conflicting properties.....	109

9. CREATING AND USING FRAMES.....I11

Introduction.....	112
-------------------	-----

Types of frames.....	113
Creating fixed frames.....	113
Controlling frame size.....	116
Creating more complex framesets.....	118
Preventing frame resizing.....	121
Formatting.....	122
Scrollbars.....	122
Frame borders.....	123
Frame margins.....	124
Navigation.....	124
Special targets.....	126
Browsers which do not support frames.....	127
Legal problems.....	128
In-line frames.....	129

10. CREATING FORMS.....131

Introduction.....	132
Creating and using forms.....	132
The form element.....	132
What is sent to the server?.....	133
Controls.....	134
The input element.....	135
Text field controls.....	136
Password controls.....	138
Checkbox controls.....	138
Radio button controls.....	139
File input controls.....	140
Buttons.....	141
The button element.....	142
The textarea element.....	143
List controls.....	143
Grouping controls.....	147
Disabling controls.....	148
The PC buyer document.....	148
Processing forms.....	151
The form element.....	152
The method attribute.....	153
The action attribute.....	153
Using email to process a form.....	153
Setting the form element.....	154
Creating the template document.....	154

11. JAVASCRIPT AND XHTML.....157

Introduction.....	158
Java and JavaScript.....	158
Using Java applets.....	159
Using JavaScript.....	162
The type attribute.....	163
The src attribute.....	164
The CDATA Section.....	164
JavaScript data types.....	165
Identifiers.....	165
Numbers.....	166
Integer literals.....	166
Floating point literals.....	167
Octal and hexadecimal literals.....	167
Arithmetic operators.....	168
Increment & decrement.....	168
Shortcut operators.....	169
Strings.....	170
Escape sequences.....	170
Working with strings.....	171
Booleans.....	171
Functions.....	172
write and writein.....	174
Passing more than one value.....	174
Scope of variables.....	175
Declaring variables.....	176
What's next?.....	176

12. THE JAVASCRIPT LANGUAGE.....177

Introduction.....	178
JavaScript errors.....	178
Formatting JavaScript code.....	178
Comments.....	179
Case sensitivity.....	179
Compound statements.....	180
The//statement.....	180
The ateclass.....	182
The <i>else</i> //clause.....	183
The comparison operators.....	184
The logical operators.....	185
The && operator.....	185
The operator.....	186

The [operator].....	186
The switch construct.....	186
Looping.....	188
while loops.....	189
do..while loops.....	190
for loops.....	192
for..in and with statements.....	194
Labels.....	194
The break statement.....	194
The continue statement.....	198
13. JAVASCRIPT CORE OBJECTS.....	199
Introduction.....	200
The navigator object.....	200
Important JavaScript objects.....	202
The Date object.....	202
The Array object.....	205
The for.in construct.....	210
The with construct.....	211
The String object.....	212
The Math object.....	215
14. HANDLING EVENTS.....	219
Introduction.....	220
The mouse events.....	220
The keyboard events.....	223
The document and window events.....	225
The form events.....	225
Verifying form data.....	226
The focus events.....	231
15. DEPRECATED AND VALID ELEMENTS.....	233
Introduction.....	234
Deprecated elements.....	234
Current XHTML elements.....	234
16. INDEX.....	239
