

H. Ieda (Ed.)

Sustainable Urban Transport in an Asian Context

fyj Springer

Contents

Preface. **v**

List of Contributors. **xv**

Part I. The First Step: An Overview

**1. Fundamental Asian Conditions: Geography,
Climate, Thoughts, and Lifestyles.** **3**

1.1 Asian Natural Factors Affecting City and Transport 3

1.2 Asian Philosophies and Life-Style. 10

1.3 Asian Thoughts and City and Transport 18

References. 28

**2. Growing Economies and Cities in Asia: From
Comparative and Historical Viewpoints.** **29**

2.1 Geographical Coverage of Asia 29

2.2 Asian Economic Growth in History. 31

2.3 Recent Performance of Asian Economies. 32

2.4 Factors for High Economic Growth in Asia. 33

2.5 Formation of Port Cities in the Medieval Ages. 37

2.6 Population Growth and Urbanization
in the World and Asia. 38

2.7 Economic Growth, Population Growth,
and Urbanization. 40

2.8 Megacities in Asia 46

2.9 Development Strategy and Megacities. 49

2.10 Toward an Aging Society. 51

References. 57

Notes. 57

3. Sustainability in Urban Transport: Multidimensional Meanings and States	59
3.1 Sustainability in an Asian Context	60
3.2 On Transport Safety.	62
3.3 On Environmental and Energy Sustainability.	65
3.4 In Security.	69
3.5 On Social Sustainability.	71
3.6 On Robustness in Facing Natural Disasters.	72
3.7 On Finance.	75
References.	78
 Part II. Best Practices from Asia with Wisdom: Keys to Success and Facing Limitations	
4. Building Transport Systems for People	83
4.1 Non-motorized Transport and Pedestrians.	83
4.2 Urban Rail Systems - Tokyo and Her Sisters.	86
4.3 Urban Expressway Systems - Shanghai and Tokyo.	100
4.4 Building Ring Roads in Advance - Beijing.	106
4.5 Rapid Transit System in Developing Asia - Metro Manila	115
4.6 Coordinating Long-distance and Urban Transport - Hong Kong.	119
4.7 Bus Systems and Its Management - Seoul, Bangkok, Nagoya and Jakarta	127
References.	141
Notes.	142
 5. Managing Transport Supply and Demand: From Passengers to Freight	143
5.1 The Origin and Strongest TDM in the World	144
5.2 Effects of Congestion Pricing at the Namsan Tunnels in Seoul	154
5.3 Bus System Restructuring - Seoul.	161
5.4 Inducing Motorcycles to Public Transit - Taipei.	169
5.5 Challenging Sustainable Urban Logistics.	177
References.	186

6. For Better Urban Form: From Macroscopic Control to Microscopic Development	189
6.1 The Designation and Adjustment of Restricted Development Zone in Korea	190
6.2 Typical Examples of Transit-Oriented City Development in Asia	197
6.3 Realizing Vital, Comfortable, and Walkable Centers.	205
6.4 Rebuilding City with Tram: Hiroshima and Dalian.	224
6.5 Traffic Impact Assessment	229
References.	234
\	
7. Managing Transport with People	237
7.1 Road Safety Audit Involving the Public: Thailand.	238
7.2 Cooperative Road Management with Users: Japan.	251
7.3 Community-Based Development and Transport - Metro Manila	262
7.4 IT-Based Public Participation and Traffic Survey: Japan.	268
References.	273
 Part III. Future of Urban Transport in Asia:	
Rising Asia Proposes to the World	
8. Development and Management of Transport Systems.	277
8.1 Urban Public Transit Systems Required in Asian Cities	277
8.2 Sustainable Developing Road Transport System - Case Study of Hanoi.	289
8.3 Future Direction of Paratransit	296
8.4 Better Urban Space Allocation for Pedestrians and Non-Motorized Modes: Traffic Impacts of a Serious Loss of Road Capacity Followed by Cheonggyecheon Restoration in Seoul.	301
8.5 Comprehensive Approaches for Traffic Safety.	308
8.6 Convenient and Sustainable City Logistics.	318
8.7 Role of ITS for Sustainability.	328
References.	333

9. Travel Demand Management in Asian Context	337
9.1 Asia-Fitted TDM	338
9.2 Effective and Feasible Measures of TDM for Cities in Asia	343
9.3 Soft-Landing Motorization Management - Specially Considering the Motorcycle.	352
References.	359
 10. Growth Management and Site-Development Strategies	361
10.1 Sustainability Assessment of Compact Cities.	361
10.2 Site-Development Policies -TOD in Special	367
References.	376
Notes.	377
 11. Financial and Institutional Measures for Sustainable Urban Transport	379
11.1 Financing Measures for Urban Transport for Asia	379
11.2 Urban Administration	385
11.3 Management System Collaborative with Users.	388
11.4 Planning Processes for a Sustainable Society.	395
11.5 Urban Transportation Policy and Poverty Reduction in Asia	408
References.	413
Notes.	413
 Index	417
