Science & Technology in China: A Roadmap to 2050

Strategic General Report of the Chinese Academy of Sciences

Contents

| | |
|--|----|
| Introduction | 1 |
| 1 The World is at the Eve of a New S&T Revolution | 7 |
| 1.1 Modernization Calls for a New S&T Revolution | 7 |
| 1.2 Signs and Possible Directions of S&T Revolution | 22 |
| 2 The New S&T Revolution Provides Historical Opportunities for China's Modernization | 28 |
| 2.1 China Must Be Fully Prepared for an Impending S&T Revolution | 28 |
| 2.2 New Demands on S&T Innovation in China's Modernization Process | 35 |
| 3 China's Eight Basic and Strategic Systems for Socio-economic Development | 42 |
| 3.1 The System of Sustainable Energy and Resources | 42 |
| 3.2 The Green System of Advanced Materials and Intelligent Manufacturing | 51 |
| 3.3 The System of Ubiquitous Information Networking | 58 |
| 3.4 The System of Ecological and High-value Agriculture and Biological Industry | 63 |
| 3.5 The Generally Applicable Health Assurance System | 68 |
| 3.6 The Development System of Ecological and Environmental Conservation | 74 |
| 3.7 The Expanded System of Space and Ocean Exploration Capability | 81 |

| | |
|---|----|
| 3.8 The National and Public Security System | 89 |
|---|----|

4

| | |
|--|-----------|
| Twenty-two S&T Initiatives of Strategic Importance to China's Modernization | 92 |
|--|-----------|

| | |
|--|----|
| 4.1 Six S&T Initiatives of Strategic Importance to China's International Competitiveness | 92 |
|--|----|

| | |
|---|----|
| 4.2 Seven S&T Initiatives of Strategic Importance to China's Sustainability ... | 98 |
|---|----|

| | |
|---|-----|
| 4.3 Two S&T Initiatives of Strategic Importance to China's National and Public Security | 107 |
|---|-----|

| | |
|--|-----|
| 4.4 Four Basic Science Initiatives Likely to Make Transformative Breakthroughs | 109 |
|--|-----|

| | |
|--|-----|
| 4.5 Three Emerging Initiatives of Cross-disciplinary and Cutting-edge Research | 112 |
|--|-----|

5

| | |
|--|------------|
| S&T Innovation with Chinese Characteristics | 115 |
|--|------------|

| | |
|--|-----|
| 5.1 Relying on Domestic Efforts and Effectively Integrating the Global Innovation Resources in Line with Opening to the Outside World..... | 117 |
|--|-----|

| | |
|---|-----|
| 5.2 Assembling and Cultivating Talents via Innovation Practice in Line with the Principle of Putting People First | 120 |
|---|-----|

| | |
|--|-----|
| 5.3 Integrating the Market's Primary Role and the Government's Macro-regulation in Line with China's Reality | 125 |
|--|-----|

| | |
|---|-----|
| 5.4 Ensuring Division of Labor and Cooperation among Stakeholders in the National Innovation System in Line with Deepening Reform | 127 |
|---|-----|

| | |
|---|-----|
| 5.5 Promoting Innovation through Management Innovation in Line with Integrated Planning | 131 |
|---|-----|
