

# Advances in Penicillium and Aspergillus Systematics

Edited by

**Robert A. Samson**

Centraalbureau voor Schimmelcultures  
Baarn, The Netherlands

and

**John I. Pitt**

CSIRO Division of Food Research  
North Ryde, NSW, Australia

Plenum Press  
New York and London  
Published in cooperation with NATO Scientific Affairs Division

## CONTENTS

### Chapter 1: TYPIFICATION AND NOMENCLATURE

|   |    |
|---|----|
| The typification and citation of the generic name <u>Penicillium</u> . ....       | 3  |
| D. L. Hawksworth  |    |
| Dierckx' contribution to the taxonomy of <u>Penicillium</u> .....                 | 9  |
| G. L. Hennebert   |    |
| Typification of <u>Aspergillus</u> and related teleomorph genera.....             | 23 |
| W. Gams and R. A. Samson  |    |
| Typification of the Species of <u>Aspergillus</u> and associated teleomorphs..... | 31 |
| R. A. Samson and W. Gams  |    |
| Infrageneric taxa of <u>Aspergillus</u> .....                                     | 55 |
| W. Gams, M. Christensen, A.H.S. Onions,<br>J. I. Pitt and R. A. Samson            |    |

### Chapter 2: TERMINOLOGY AND METHODOLOGY

|  |    |
|--|----|
| The penicillus.....  | 65 |
| C. Ramírez   |    |
| Descriptive terminology of the conidiogenous structures in <u>Aspergillus</u> and <u>Penicillium</u> ..... | 71 |
| D. W. Minter, D. L. Hawksworth,<br>A. H. S. Onions and Z. Kozakiewicz                                      |    |
| The naming of chemical variants in <u>Penicillium</u> and <u>Aspergillus</u> .....                         | 89 |
| J. I. Pitt and D. L. Hawksworth  |    |
| Media and incubation conditions for <u>Penicillium</u> and <u>Aspergillus</u> taxonomy.....                | 93 |
| J. I. Pitt   |    |

|   |     |
|---|-----|
| Evaluation of some morphological features of<br>asymmetric Penicillia on different media.....               | 105 |
| O. Fassatiová   |     |
| Bridging the gap: Taxonomists and food<br>mycologists.....  | 113 |
| L. R. Beuchat   |     |
| Chapter 3: ADVANCES IN <i>PENICILLIUM</i> TAXONOMY  |     |
| The closely related species of subgenus<br><i>Penicillium</i> - a phylogenetic exploration.....             | 121 |
| A. P. Williams, J. I. Pitt and<br>A. D. Hocking   |     |
| A revised key to <i>Penicillium</i> Subgenus <i>Penicillium</i> .....                                       | 129 |
| A. P. Williams and J. I. Pitt   |     |
| Revision of recently described <i>Penicillium</i><br>taxa.....  | 135 |
| C. Ramírez  |     |
| The genus <i>Coremium</i> and the synnematous<br><i>Penicillia</i> .....                                    | 143 |
| K. A. Seifert and R. A. Samson  |     |
| Inherent problems in <i>Penicillium</i><br>taxonomy.....  | 155 |
| J. I. Pitt  |     |
| A new taxonomic scheme for<br><i>Penicillium</i> anamorphs.....   | 163 |
| A. C. Stolk and R. A. Samson  |     |
| Chapter 4. ADVANCES IN <i>ASPERGILLUS</i> TAXONOMY  |     |
| <i>Aspergillus</i> : an overview.....   | 195 |
| M. Christensen and D. E. Tuthill  |     |
| The theory and practise of distinguishing<br>species of the<br><i>Aspergillus flavus</i> group.....         | 211 |
| M. A. Klich and J. I. Pitt  |     |
| Similarities between the genera <i>Stilbothamnium</i><br>and <i>Aspergillus</i> .....                       | 221 |
| M.-F. Roquebert and J. Nicot  |     |
| Chapter 5: NEW TECHNIQUES AND APPROACHES TO THE SYSTEMATICS OF<br><i>PENICILLIUM</i> AND <i>ASPERGILLUS</i> |     |
| Classification of fungi<br>through nucleic acid relatedness.....  | 233 |
| C. P. Kurtzman  |     |

|   |     |
|---|-----|
| Ecological adaptation and classification in<br><u>Aspergillus</u> and <u>Penicillium</u> .....  | 255 |
| D. T. Wicklow   |     |
| Serological approaches for identification<br>of <u>Aspergillus</u> and <u>Penicillium</u> species.....                                    | 267 |
| L. Polonelli, M. Castagnola,<br>C. D'Urso and G. Morace   |     |
| An integrated approach to <u>Penicillium</u><br>systematics.....  | 281 |
| P. D. Bridge, D. L. Hawksworth,<br>Z. Kozakiewicz, A. H. S. Onions,<br>R. R. M. Paterson, and M. J. Sackin                                |     |
| Profiles of primary and secondary metabolites<br>of value in classification of<br><u>Penicillium viridicatum</u> and related species..... | 311 |
| J. C. Frisvad   |     |
| Classification of asymmetric Penicillia<br>using expressions of differentiation.....  | 327 |
| J. C. Frisvad   |     |
| Taxonomic implication of hybridization of<br><u>Penicillium</u> protoplasts.....  | 337 |
| J. Anne   |     |
| Solutions to some problems in <u>Aspergillus</u><br>taxonomy using the<br>scanning electron microscope.....                               | 351 |
| Z. Kozakiewicz  |     |
| Chapter 6: TELEOMORPHS AND THEIR RELATIONSHIPS  |     |
| The Trichocomaceae:   |     |
| Relationships with other Ascomycetes .....  | 365 |
| D. Malloch  |     |
| Nomenclatorial and taxonomic problems<br>in the genus <u>Eurotium</u> .....   | 383 |
| J. I. Pitt  |     |
| The ascomycete genus <u>Penicilliopsis</u><br>and its anamorphs.....  | 397 |
| R. A. Samson and K. A. Seifert  |     |
| Contribution to our knowledge of <u>Aspergillus</u><br>teleomorphs: some taxonomic problems.....  | 429 |
| S. Udagawa and M. Takada  |     |
| Secondary metabolites as an aid<br>to <u>Emericella</u> classification.....   | 437 |
| J. C. Frisvad   |     |
| Are the species of <u>Penicillium</u> as imperfect as<br>we think? .....  | 445 |
| C. Ramírez  |     |

## Chapter 7: RECOMMENDATIONS

|  |     |
|--|-----|
| General recommendations.....   | 455 |
| Check list of common <u>Penicillium</u> species.....                                       | 461 |
| R. A. Samson and J.I. Pitt   |     |
| Glossary of terms for the descriptions<br>of <u>Aspergilli</u> and <u>Penicillia</u> ..... | 465 |
| R. A. Samson and J.I. Pitt   |     |
| Appendix.....  | 469 |
| List of workshop participants.....   | 471 |
| Index.....   | 475 |
