TABLE OF CONTENTS

| | |
|---|------------|
| PREFACE | xi |
| MODELING AND CLIMATE | |
| CLIMATE MODELING OVER THE MEDITERRANEAN REGION: AN OVERVIEW. F. Giorgi. | 1 |
| MODELING OF DUST PROCESSES FOR THE SAHARAN AND MEDITERRANEAN AREA. S. Nickovic. | 15 |
| QUANTITATIVE REMOTE SENSING OF AFRICAN DUST TRANSPORT TO THE MEDITERRANEAN. F. Dulac, C. Moulin, C.E. Lambert, F. Guillard, J. Poitou, W. Guelle, C.R. Quétel, X. Schneider & U. Ezat. | 25 |
| MODEL COMPONENTS NECESSARY TO CAPTURE A DUST PLUME PATTERN OVER THE MEDITERRANEAN SEA. M. Schulz, Y. Balkanski, W. Guelle, F. Dulac, C. Moulin & C.E. Lambert. | 51 |
| THE PRELIMINARY MODELING RESULTS OF SAHARAN DUST TRANSPORT TO THE MEDITERRANEAN SEA AND EUROPE S. Grigoryan & L. Erdman | 59 |
| IMPORTANCE OF THE SOURCE TERM AND THE SIZE DISTRIBUTION TO MODEL THE MINERAL DUST CYCLE. Y. Balkanski, M. Schulz, B. Marticorena, G. Bergametti, W. Guelle, F. Dulac, C. Moulin & C.E. Lambert. | 69 |
| THE EFFECTS OF DESERT PARTICLES ON CLOUD AND RAIN FORMATION IN THE EASTERN MEDITERRANEAN. Z. Levin & E. Ganor | 77 |
| APPLICATION OF A LANGRANGIAN MODEL TO THE STUDY OF THE ATMOSPHERIC FLUXES TO THE WESTERN MEDITERRANEAN. M. Alarcón, A. Cruzado & S. Alonso. | 87 |
| ATLANTIC DISTURBANCES DEEPLY PENETRATING THE AFRICAN CONTINENT: EFFECTS OVER SAHARAN REGIONS AND THE MEDITERRANEAN BASIN. M. Conte, M. Colacino & E. Piervitali. | 93 |
| SEASONAL DISTRIBUTION OF THE BOUNDARY LAYER DEPTHS OVER THE MEDITERRANEAN BASIN. U. Dayan, J.L. Heffter & J.M. Miller | 103 |

| | |
|---|-----|
| BIOMASS BURNING IN NORTH AFRICA AND ITS POSSIBLE RELATIONSHIP TO CLIMATE CHANGE IN THE MEDITERRANEAN BASIN. D.O. Suman | 113 |
| MODELING THE PRESENT AND LAST GLACIAL MAXIMUM TRANSPORTATION OF DUST TO THE ARCTIC WITH AN EXTENDED SOURCE SCHEME. K.K. Andersen & C. Genthon. | 123 |
| GEOLOGY AND SOURCE REGIONS | |
| SAHARAN DUST TRANSPORT OVER THE NORTH ATLANTIC OCEAN AND MEDITERRANEAN: AN OVERVIEW. J.M. Prospero | 133 |
| MINERALOGICAL CHARACTERISATION OF SAHARAN DUST WITH A VIEW TO ITS FINAL DESTINATION IN MEDITERRANEAN SEDIMENTS. E. Molinaroli | 153 |
| THE MINERALOGICAL AND CHEMICAL PROPERTIES AND THE BEHAVIOUR OF AEOLIAN SAHARAN DUST OVER ISRAEL. E. Ganor & H. Foner | 163 |
| IDENTIFICATION AND QUANTIFICATION OF DUST ADDITIONS IN PERI-SAHARAN SOILS. L. Herrmann, R. Jahn & K. Stahr | 173 |
| SEDIMENTOLOGICAL CHARACTERISTICS OF SAHARAN AND AUSTRALIAN DUSTS. L. Kiefert, G.H. McTainsh & W.G. Nickling | 183 |
| SAHARAN DUST INPUT TO THE WESTERN MEDITERRANEAN: AN ELEVEN YEARS RECORD IN CORSICA. M.D. Loye-Pilot & J.M. Martin | 191 |
| AFRICAN DUST OVER NORTHEASTERN SPAIN: MINERALOGY AND SOURCE REGIONS. A. Avila, I. Queralt, F. Gallart & J. Martin-Vide. | 201 |
| SAHARAN AEROSOLS: FROM THE SOIL TO THE OCEAN. C. Guieu & A.J. Thomas | 207 |
| ATMOSPHERE-OCEAN MASS FLUXES AT TWO COASTAL SITES IN SARDINIA (39-41° N, 8-10° E). O. Le Bolloch, S. Guerzoni & E. Molinaroli. | 217 |
| MINERALOGY AND SOURCE OF HIGH ALTITUDE GLACIAL DEPOSITS IN THE WESTERN ALPS: CLAY MINERALS AS SAHARAN DUST TRACERS L. Tomadin, D. Wagenbach, & V. Landuzzi | 223 |

| | |
|--|-----|
| GRAIN SIZE ANALYSIS OF AEROSOL AND RAIN PARTICLES: A METHODODOLOGICAL COMPARISON. G. De Falco, E. Molinaroli & S. Rabitti. | 233 |
|--|-----|

| | |
|---|-----|
| AEROBIOLOGICAL RESULTS FROM THE 1994 CRUISE OF THE URANIA (CNR). P. Comtois & P. Mandrioli | 239 |
|---|-----|

| | |
|--|-----|
| LONG-RANGE TRANSPORT OF BIOLOGICAL PARTICLES OF DESERT ORIGIN: A SHORT REVIEW. M. Hjelmroos. | 247 |
|--|-----|

CHEMICAL FLUXES AND COMPOSITION OF THE ATMOSPHERE

| | |
|---|-----|
| THE INFLUENCE OF SAHARAN AND MIDDLE EASTERN DESERT-DERIVED DUST ON THE TRACE METAL COMPOSITION OF MEDITERRANEAN AEROSOLS AND RAINWATER: AN OVERVIEW. R. Chester, M. Nimmo & S. Keyse | 253 |
|---|-----|

| | |
|---|-----|
| ELEMENTAL COMPOSITION AND AIR TRAJECTORIES OF AFRICAN DUST TRANSPORTED IN NORTHERN ITALY. P. Bonelli, G.M. Braga Marcazzan, & E. Cereda | 275 |
|---|-----|

| | |
|---|-----|
| THE IMPACT OF SAHARAN DUST ON TRACE METAL SOLUBILITY IN RAINWATER IN SARDINIA, ITALY. F. Frau, R. Caboi & A. Cristini | 285 |
|---|-----|

| | |
|--|-----|
| NORTHWARD TRANSPORT OF SAHARAN DUST RECORDED IN A DEEP ALPINE ICE CORE. D. Wagenbach, S. Preunkert, J. Schafer, W. Jung & L. Tomadin | 291 |
|--|-----|

| | |
|--|-----|
| ESTIMATING DUST INPUT TO THE ATLANTIC OCEAN USING SURFACE WATER ALUMINIUM CONCENTRATIONS. C. I. Measures & E.T. Brown. | 301 |
|--|-----|

| | |
|--|-----|
| EFFECT OF SAHARAN DUST TRANSPORT ON OZONE AND CARBON DIOXIDE CONCENTRATION. P. Bonasoni, T. Colombo, R. Lenaz, G. Tesi, F. Evangelisti, G. Giovanelli, F. Ravegnani & R. Santaguida | 313 |
|--|-----|

| | |
|---|-----|
| AFRICAN DUST INFLUENCE ON RAINWATER ON THE EASTERN COAST OF SPAIN. A. Carratalà, J. Bellot, A. Gomez & M. Millan. | 323 |
|---|-----|

| | |
|---|-----|
| TRACE METAL COMPOSITION AND GRAIN-SIZE OF PARTICULATES IN AEROSOLS AND PRECIPITATION COLLECTED IN N. W. MEDITERRANEAN (39°N, 9°E): A MULTIVARIATE ANALYSIS. S. Guerzoni, G. Quarantotto, G. Cesari, E. Molinaroli, G. Rampazzo & O. Le Bolloch | 333 |
|---|-----|

| | |
|---|-----|
| CHEMICAL CONCENTRATIONS AND ELEMENTS SIZE DISTRIBUTIONS OF AEROSOLS IN THE EASTERN MEDITERRANEAN DURING STRONG DUST STORMS. G.H. Gullu, I. Olmez & G.Tuncel | 339 |
| ATMOSPHERIC INPUTS OF NUTRIENTS AND DUST TO THE SOUTHEASTERN MEDITERRANEAN. B. Herut & M. Krom | 349 |
| SHIPBOARD DERIVED CONCENTRATIONS OF SULPHUR AND NITROGEN COMPOUNDS AND TRACE METALS IN THE MEDITERRANEAN AEROSOL. V. I. Medinets | 359 |
| QUASI-SEASONAL NEUTRALIZATION OF ACID RAIN IN TUSCANY: CAN SAHARAN DUST BE RESPONSIBLE? S. Bellandi, C. Oppo, R. Udisti, & F. Pantani | 369 |
| RELATIONSHIPS AMONG SOME COMPONENTS OF MARINE AEROSOL SAMPLED AT LEGHORN, TYRRHENIAN SEA, ITALY. G. Piccardi, D. Uncini & R. Udisti | 375 |
| EVIDENCE OF BIOGENIC SULPHUR COMPOUNDS IN MEDITERRANEAN AEROSOL AND RAINWATER. R. Udisti, M. Mangoni, S. Guerzoni, J. Hjorth, O. Le Bolloch, G. Piccardi, & D. Uncini | 381 |
| INDEX | 387 |
