

Habitat of Hydrocarbons on the Norwegian Continental Shelf

Proceedings of an international conference (Habitat of Hydrocarbons—
Norwegian Oil and Gas Finds) organized by The Norwegian
Petroleum Society in Stavanger, Norway, 1–3 October 1985.

Edited by
A. M. Spencer et al.

Contents

Foreword	ix
Introduction F. Al-Kasim	xi

Part I—Regional Studies

1. Tectonic habitat of Norwegian oil and gas W. H. Ziegler, R. Doery and J. Scott	3
2. A regional geological perspective of the Norwegian offshore exploration provinces M. S. Gage and A. G. Doré	21
3. Geochemical habitat of North Sea oils and gases C. Cornford, C. E. J. Needham and L. de Walque	39
4. Structural elements in graben systems and their influence on hydrocarbon trap types R. H. Gabrielsen	55
5. Exploration success offshore Norway compared with the remainder of the North Sea Graben System and with other hydrocarbon provinces K. J. Chew and H. Stephenson	61

Part II—Central Graben

6. The Norwegian chalk fields M. D'Heur	77
7. Reservoir characteristics of high- and low-productivity chalks from the Central North Sea S. Sørensen, M. Jones, R. F. P. Hardman, W. K. Leutz and P. H. Schwarz	91
8. Habitat of hydrocarbons in the Jurassic Ula Trend, Central Graben, Norway A. M. Spencer, P. C. Home and V. Wiik	111
9. Structural development of hydrocarbon traps, Block 2/2, Norway R. H. Gabrielsen, O. F. Ekern and A. Edvardsen	129
10. Late Oligocene gas accumulations, Block 2/2, Norway O. F. Ekern	143

Part III—South Viking Graben

- | | |
|---|-----|
| 11. South Viking Graben: habitat of Mesozoic hydrocarbons
D. P. Curtin and S. Ballestad | 153 |
| 12. Habitat of Tertiary hydrocarbons, South Viking Graben
A. Conort | 159 |
| 13. New Turbiditic model for the Lower Tertiary sands in the South Viking Graben
J. M. Enjolras, J. Gouadain, E. Mutti and J. Pizon | 171 |

Part IV—North Viking Graben

- | | |
|--|-----|
| 14. The Snorre, Statfjord and Gullfaks oilfields and the habitat of hydrocarbons on the Tampen Spur, offshore Norway
W. Karlsson | 181 |
| 15. Geology of the Hild Field
K. Rønning, C. D. Johnston, S. E. Johnstad and P. Songstad | 199 |
| 16. The seismic flatspot and the discovery and delineation of the Troll Field
R. Birtles | 207 |
| 17. The Troll Field: a geological/geophysical model established by the PLO85 Group
T. Hellem, A. Kjemperud and O. K. Øvrebø | 217 |

Part V—Mid Norway

- | | |
|---|-----|
| 18. The role of salt movement in the tectonic history of Haltenbanken and Trænabanken and its relationship to structural style
J. S. Jackson and D. S. Hastings | 241 |
| 19. Habitat of hydrocarbons at Haltenbanken (PVT-modelling as a predictive tool in hydrocarbon exploration)
O. R. Heum, A. Dalland and K. K. Meisingset | 259 |
| 20. Diagenesis and reservoir properties of Jurassic sandstones from the Haltenbanken area, offshore mid Norway
K. Bjørlykke, P. Aagaard, H. Dypvik, D. S. Hastings and A. S. Harper | 275 |
| 21. Cretaceous stratigraphy and reservoir potential, mid Norway Continental Shelf
D. S. Hastings | 287 |
| 22. The Smørbukk gas/condensate discovery, Haltenbanken
S. M. Aasheim, A. Dalland, A. Netland and A. Thon | 299 |
| 23. Oil discovery in 6507/7; an initial look at the Heidrun Field
R. H. Koenig | 307 |
| 24. The Draugen oil discovery
D. W. Ellenor and A. Mozetic | 313 |

Part VI—Barents Sea

- 25. The evolution of the Hammerfest Basin**
L. T. Berglund, J. Augustson, R. Færseth, J. Gjelberg and H. Ramberg-Moe 319
- 26. Future petroleum potential of the Barents Sea**
E. Bergsager 339
