TABLE OF CONTENTS

Introduction	vii
Biographical Notes of the Contributors	xiii

PART I

Co-operative Processes and the Production of Scientific Knowledge

STUART S. BLUME / The Theoretical Significance of Co-operative Research	3
JOSKE BUNDERS / The Practical Management of Scientists' Actions: The Influence of Patterns of Knowledge Development in Biology on Cooperations Between University Biologists and Non-Scientists	39

PART II

Collaborations Between Scientists and Non-Scientists at the Grassroots

RAINALD VON GIZYCKI / Cooperation Between Medical Researchers and a Self-Help Movement: The Case of the German Retinitis Pigmentosa Society	75
JACQUELINE CRAMER, RON EYERMAN and ANDREW JAMISON / The Knowledge Interests of the Environmental Movement and Its Potential for Influencing the Development of Science	89
GEORGES BENGUIGUI / The Scientist, the Fisherman and the Oyster Farmer	117
LOET LEYDESDORFF and PETER VAN DEN BESSELAAR / What We Have Learned from the Amsterdam Science Shop	135

PART III

Collaborations in National Contexts

RADHIKA RAMASUBBAN and BHANWAR SINGH / The Orientation of the Public Sciences in a Post-Colonial-Society: The Experience of India	163
HARLEY D. BALZER / Workers' Faculties and the Development of Science Cadres in the First Decade of Soviet Power	193
OLGA AMSTERDAMSKA / Intellectuals in Social Movements: The Experts of "Solidarity"	213

PART IV

Collaborations and the Emergence of New Scientific Fields

KATRIN FRIDJONSDOTTIR / Social Change, Trade Union Politics, and Sociology of Work	249
PETER WAGNER / Social Sciences and Political Projects: Reform Coalitions Between Social Scientists and Policy-Makers in France, Italy, and West Germany	277
PETER GROENEWEGEN / Attracting Audiences and the Emergence of Toxicology as a Practical Science	307

Epilogue

JOSKE BUNDERS and LOET LEYDESDORFF / The Causes and Consequences of Collaborations Between Scientists and Non-Scientific Groups	331
Index	349
