

Christos Alexopoulos · David Goldsman ·
James R. Wilson
Editors

Advancing the Frontiers of Simulation

A Festschrift in Honor of
George Samuel Fishman

With Contributions by
Russell Cheng, Soumyadip Ghosh, Shane G. Henderson,
Peter W. Glynn, Eunji Lim, James O. Henriksen,
Wolfgang Hörmann, Josef Leydold, Jack P. C. Kleijnen,
Pierre L'Ecuyer, François Panneton, Andrew F. Seila,
Sally Brailsford, Steffen Straßburger, Thomas Schulze,
Richard Fujimoto, Shing Chih Tsai, Barry L. Nelson,
Jeremy Staum, Tüba Aktaran-Kalaycı

 Springer

Contents

LB

George Fishman's Professional Career	1
Christos Alexopoulos, David Goldsman, and James R. Wilson	
A Conversation with George Fishman	21
Christos Alexopoulos, David Goldsman, and James R. Wilson	
Computer Intensive Statistical Model Building	43
Russell Cheng	
Patchwork Distributions	65
Soumyadip Ghosh and Shane G. Henderson	
Asymptotic Validity of Batch Means Steady-State Confidence Intervals ...	87
Peter W. Glynn and Eunji Lim	
Efficient Modeling of Delays in Discrete-Event Simulation	105
James O. Henriksen	
Sampling from Linear Multivariate Densities	143
Wolfgang Hörmann and Josef Leydold	
Factor Screening in Simulation Experiments: Review of Sequential Bifurcation	153
Jack P. C. Kleijnen	
F_2-Linear Random Number Generators	169
Pierre L'Ecuyer and François Panneton	
Opportunities and Challenges in Health Care Simulation	195
Andrew F. Seila and Sally Brailsford	

Future Trends in Distributed Simulation and Distributed Virtual Environments	231
Steffen Straßburger, Thomas Schulze, and Richard Fujimoto	
Combined Screening and Selection of the Best with Control Variates	263
Shing Chih Tsai, Barry L. Nelson, and Jeremy Staum	
Optimal Linear Combinations of Overlapping Variance Estimators for Steady-State Simulation	291
Tüba Aktaran-Kalaycı, Christos Alexopoulos, David Goldsman, and James R. Wilson	
Author Index	329
