

Frantisek^v Stulajter

Predictions in Time Series Using Regression Models

Springer

Contents

Hilbert Spaces and Statistics	1
1.1 Hilbert Spaces, and Projections.	1
1.2 Preliminaries from Statistics.	6
1.3 Estimation of Parameters.	12
1.4 Double Least Squares Estimators.	24
1.5 Invariant Quadratic Estimators.	30
1.6 Unbiased Invariant Estimators.	37
Random Processes and Time Series	51
2.1 Basic Notions.	51
2.2 Models for Random Processes.	53
2.3 Spectral Theory.	61
2.4 Models for Time Series.	65
Estimation of Time Series Parameters	73
3.1 Introduction.	73
3.2 Estimation of Mean Value Parameters.	74
3.3 Estimation of a Covariance Function.	99
3.4 Maximum Likelihood Estimation.	118
Predictions of Time Series	147
4.1 Introduction.	147
4.2 Predictions in Linear Models.	149
4.3 Model Choice and Predictions.	165
4.4 Predictions in Multivariate Models.	179
4.5 Predictions in Nonlinear Models.	189
Empirical Predictors	197
5.1 Introduction.	197
5.2 Properties of Empirical Predictors.	198
5.3 Numerical Examples.	208
References	223
Index	229
