

Marc Lankhorst et al.

# Enterprise Architecture at Work

Modelling, Communication and Analysis

Second Edition

 Springer

# Contents

<b>1 Introduction to Enterprise Architecture .....</b>	<b>1</b>
1.1 Architecture .....	1
1.2 Enterprise Architecture .....	3
1.3 The Architecture Process .....	5
1.4 Drivers for Enterprise Architecture .....	6
1.4.1 Internal Drivers.....	6
1.4.2 External Drivers.....	9
1.5 Summary.....	11
<b>2 State of the Art .....</b>	<b>13</b>
2.1 Enterprise Architecture and Other Governance Instruments .....	13
2.1.1 Strategic Management: Balanced Scorecard .....	14
2.1.2 Strategy Execution: EFQM .....	15
2.1.3 Quality Management: ISO 9001 .....	17
2.1.4 IT Governance: COBIT .....	18
2.1.5 IT Service Delivery and Support: ITIL .....	19
2.1.6 IT Implementation: CMM and CMMI .....	20
2.2 Methods and Frameworks.....	22
2.2.1 Enterprise Architecture Methods.....	22
2.2.2 The IEEE 1471-2000 / ISO/IEC 42010 Standard.....	23
2.2.3 The Zachman Framework.....	25
2.2.4 The Open Group Architecture Framework (TOGAF).....	26
2.2.5 OMG's Model-Driven Architecture (MDA) .....	29
2.2.6 Other Frameworks .....	31
2.3 Description Languages .....	33
2.3.1 IDEF .....	34
2.3.2 BPMN.....	35
2.3.3 Testbed .....	36
2.3.4 ARIS .....	37
2.3.5 Unified Modeling Language.....	39
2.3.6 Architecture Description Languages .....	42
2.3.7 Suitability for Enterprise Architecture.....	43
2.4 Service-Oriented Architecture .....	43
2.4.1 Service-Oriented Technologies .....	45
2.4.2 Relevance and Benefits for Enterprise Architecture.....	46

<b>3 Foundations .....</b>	<b>49</b>
3.1 Getting to Grips with Architectural Complexity .....	49
3.1.1 Compositionality .....	50
3.1.2 Integration of Architectural Domains.....	51
3.2 Describing Enterprise Architectures.....	54
3.2.1 Observing the Universe .....	54
3.2.2 Concerns.....	55
3.2.3 Observing Domains .....	56
3.2.4 Views and Viewpoints.....	57
3.2.5 Ways of Working .....	58
3.2.6 Enterprise Architecture Models.....	58
3.3 Pictures, Models, and Semantics .....	60
3.3.1 Symbolic and Semantic Models .....	61
3.3.2 Symbolic Models.....	63
3.3.3 Semantic Models .....	65
3.3.4 Semantics in ArchiMate vs. UML.....	66
3.4 Summary.....	67
<b>4 Communication of Enterprise Architectures .....</b>	<b>69</b>
4.1 Introduction .....	69
4.2 System Development as a Knowledge Transformation Process ...	71
4.2.1 System Development Community.....	71
4.2.2 System Development Knowledge .....	72
4.2.3 Explicitness of Knowledge.....	74
4.2.4 Transformations of Knowledge.....	76
4.3 Conversation Strategies .....	77
4.4 Architectural Conversations .....	80
4.4.1 Knowledge Goals .....	81
4.4.2 Conversation Techniques .....	82
4.5 Summary.....	84
<b>5 A Language for Enterprise Modelling .....</b>	<b>85</b>
5.1 Describing Coherence.....	86
5.2 Service Orientation and Layering.....	88
5.3 Three Dimensions of Modelling.....	89
5.4 Business Layer Concepts.....	91
5.4.1 Business Structure Concepts .....	92
5.4.2 Business Behaviour Concepts .....	94
5.4.3 Higher-Level Business Concepts.....	97

---

5.5 Application Layer Concepts .....	99
5.5.1 Application Structure Concepts .....	100
5.5.2 Application Behaviour Concepts .....	101
5.5.3 Business–Application Alignment .....	102
5.6 Technology Layer Concepts .....	103
5.6.1 Technology Structure Concepts .....	104
5.6.2 Technology Behaviour Concepts .....	105
5.6.3 Application–Technology Alignment .....	105
5.7 Relations .....	106
5.8 Language Extension Mechanisms .....	110
5.8.1 Adding Attributes to ArchiMate Concepts and Relations .....	111
5.8.2 Specialisation of Concepts .....	111
5.9 ArchiMate and TOGAF .....	112
5.10 Modelling Example .....	114
5.11 Summary .....	118
<b>6 Guidelines for Modelling .....</b>	<b>121</b>
6.1 Introduction .....	121
6.2 The Modelling Process .....	123
6.2.1 Modelling as a Transformation Process .....	123
6.2.2 Basic Modelling Activities .....	124
6.2.3 Types of Modelling Actions .....	127
6.3 Guidelines for Modelling .....	131
6.3.1 Before You Start .....	134
6.3.2 What to Capture in a Model? .....	134
6.3.3 Modelling and Abstraction .....	136
6.3.4 Structuring Models and Visualisations .....	137
6.3.5 Constructive Use of Modelling Breakdowns .....	141
6.4 Readability and Usability of Models .....	144
6.4.1 Reducing the Visual Complexity of Models .....	145
6.4.2 Representation Conventions .....	147
6.5 Summary .....	152
<b>7 Viewpoints and Visualisation .....</b>	<b>153</b>
7.1 Architecture Viewpoints .....	153
7.1.1 Origin of Viewpoints .....	154
7.1.2 Architecture Viewpoints .....	155
7.1.3 Viewpoint Frameworks .....	156
7.2 Models, Views, and Visualisations .....	158
7.2.1 Example: Process Illustrations .....	160
7.2.2 Example: Landscape Maps .....	161
7.3 Visualisation and Interaction .....	163
7.3.1 Actions in Views .....	164

---

7.4 Creating, Selecting, and Using Viewpoints .....	167
7.4.1 Classification of Viewpoints .....	167
7.4.2 Guidelines for Using Viewpoints .....	171
7.4.3 Scoping .....	171
7.4.4 Creation of Views .....	172
7.4.5 Validation .....	173
7.4.6 Obtaining Commitment .....	174
7.4.7 Informing Stakeholders .....	175
7.5 Basic Design Viewpoints.....	176
7.5.1 Introductory Viewpoint .....	179
7.5.2 Organisation Viewpoint.....	181
7.5.3 Actor Cooperation Viewpoint .....	181
7.5.4 Business Function Viewpoint.....	183
7.5.5 Product Viewpoint.....	184
7.5.6 Service Realisation Viewpoint .....	185
7.5.7 Business Process Cooperation Viewpoint .....	186
7.5.8 Business Process Viewpoint.....	187
7.5.9 Information Structure Viewpoint.....	187
7.5.10 Application Cooperation Viewpoint.....	188
7.5.11 Application Usage Viewpoint .....	190
7.5.12 Application Behaviour Viewpoint.....	191
7.5.13 Application Structure Viewpoint.....	191
7.5.14 Infrastructure Viewpoint.....	192
7.5.15 Infrastructure Usage Viewpoint.....	193
7.5.16 Implementation & Deployment Viewpoint .....	193
7.6 ArchiMate and TOGAF Views.....	194
7.7 Summary.....	197
<b>8 Architecture Analysis .....</b>	<b>199</b>
8.1 Analysis Techniques .....	199
8.2 Quantitative Analysis .....	201
8.2.1 Performance Views .....	202
8.2.2 Performance Analysis Techniques for Architectures .....	204
8.2.3 Quantitative Modelling.....	206
8.2.4 Quantitative Analysis Technique.....	212
8.3 Functional Analysis .....	217
8.3.1 Static Analysis .....	218
8.3.2 Dynamic Analysis .....	221
8.4 Summary.....	229

---

<b>9 Architecture Alignment.....</b>	<b>231</b>
9.1 Introduction .....	231
9.2 The GRAAL Alignment Framework.....	232
9.2.1 System Aspects.....	233
9.2.2 The Aggregation Hierarchy .....	234
9.2.3 The System Process .....	236
9.2.4 Refinement Levels.....	237
9.2.5 Comparison with Other Frameworks.....	237
9.3 Alignment Phenomena.....	238
9.3.1 Service Provisioning Layers.....	238
9.3.2 Infrastructure Architecture .....	240
9.3.3 Business System Architecture .....	243
9.3.4 Strategic Misalignment.....	246
9.3.5 Conway's Law .....	247
9.3.6 The FMO Alignment Pattern .....	249
9.4 The Architecture Process .....	250
9.4.1 Methods .....	250
9.4.2 IT Governance .....	252
9.5 Summary.....	254
<b>10 Tool Support.....</b>	<b>257</b>
10.1 Reasons for Enterprise Architecture Tooling .....	257
10.2 The Architecture Tool Landscape .....	258
10.3 Tool Infrastructure .....	259
10.4 Workbench for Enterprise Architecture.....	261
10.4.1 Model Integration .....	261
10.4.2 Viewpoint Definition.....	263
10.4.3 Transparency and Extensibility .....	263
10.4.4 Software Architecture.....	264
10.4.5 Exchange Formats .....	265
10.4.6 Workbench at Work.....	265
10.5 View Designer Tool.....	267
10.5.1 Viewpoint Rules for Creating Views and Visualisations ....	268
10.5.2 Defining Actions in Models and Views.....	269
10.5.3 Interactive Visualisation .....	271
10.5.4 Example: The Landscape Map Tool.....	273
10.5.5 Comparison with Model–View–Controller Architecture ....	275
10.6 Impact-of-Change Analysis Tool .....	276
10.7 Quantitative Analysis Tool .....	279
10.8 Commercial Tool Support for ArchiMate .....	280
10.9 Summary.....	281

<b>11 Case Studies.....</b>	<b>283</b>
11.1 Process and Application Visualisation at ABP.....	283
11.1.1 ABP Meta-Model .....	284
11.1.2 Case Essentials .....	285
11.1.3 Concepts .....	286
11.1.4 Viewpoints.....	288
11.1.5 Design of the Visualiser .....	291
11.1.6 Case Study Results .....	294
11.2 Application Visualisation at ABN AMRO.....	294
11.2.1 CITA Meta-Model.....	295
11.2.2 Case Essentials .....	296
11.2.3 Concepts .....	297
11.2.4 Visualisation.....	299
11.2.5 Tool Design and Results.....	305
11.3 Design and Analysis at the Dutch Tax and Customs Administration.....	305
11.3.1 Case Essentials .....	306
11.3.2 Views.....	306
11.3.3 Performance Analysis.....	314
11.3.4 Case Study Results .....	317
11.4 Summary.....	318
<b>12 Beyond Enterprise Architecture.....</b>	<b>319</b>
12.1 The World Before Enterprise Architecture.....	319
12.2 The Advent of Enterprise Architecture.....	321
12.3 The Extended Enterprise .....	322
<b>Appendix A – Language Metamodel.....</b>	<b>327</b>
<b>Appendix B – Graphical Notation.....</b>	<b>329</b>
<b>Appendix C – Relations.....</b>	<b>331</b>
<b>About the Author .....</b>	<b>333</b>
<b>References .....</b>	<b>335</b>
<b>Trademarks.....</b>	<b>347</b>
<b>Index .....</b>	<b>349</b>
