OF THE ORGANISATION FOR ECONOMIC CO-OPERATION AND DEVELOPMENT

(1991)

TABLE OF CONTENTS

ACKNOWLEDGEMENTS	10
PREFACE	11
EXECUTIVE SUMMARY	13
A. From Boom to Crisis and Stabilization	13
B. Historical Analysis	13
C. Simulations of Alternative Approaches to Stabilization	14
1. Structural Features of the Economy and Role of the State	15
2. Policy Instruments for Stabilization	17
3. Managing the Political Feasibility of Stabilization	18
INTRODUCTION : Crisis and Stabilization in Ecuador	19
A. The Analysis of Stabilization	19
B. Ecuador: From Boom to Crisis	21

Chapter I

THE SOCIOECONOMIC STRUCTURE OF ECUADOR BEFORE THE DEBT CRISIS

A. Structure of the Economy	25
B. Income and Poverty	26
C. The 1980 Social Accounting Matrix	28

Chapter II

MACROECONOMIC DISEQUILIBRIA AND THE STABILIZATION PROGRAM

A. Chronology of Events from 1965 to 1987	45
1. Petroleum Bonanza and Dutch Disease	45
2. Crisis and Beginnings of a Stabilization Program	46
3. The Challenge of Neo-Liberalism Under Democracy	46
4. From Stabilization to Adjustment	47
B. Elements of Stabilization and Adjustment Policies	49
1. Exchange Rate Policy	49
2. Monetary and Fiscal Policies	50
3. Trade Policies	52
4. Agricultural Sector Performance	52
5. Perspectives on Petroleum Resources and Debt	53

Chapter III

STABILIZATION AND WELFARE

A. Employment	65
B. Wages	66
C. Equity	67
D. Health and Education	67
E. Income Equations	68

Chapter IV

THE COMPUTABLE GENERAL EQUILIBRIUM MODEL

A. Transition: From Historical Analysis to Policy Modeling	79
1. Questions from the Ecuadorian Experience	79
2. Model Calibration	81
B. Construction of the CGE Model	82
1. Real Side of the CGE	82
2. Financial Side of the CGE	83
3. Elasticities and Base Run calibration	84

Annex to Chapter IV

THE CGE MODEL: REAL AND FINANCIAL SIDES

A. Financial Sector Overview	91
B. Real Side of the Model	93
C. Financial Side of the Model	94
D. Expectations and Dynamics	95

Chapter V

BASIC POLICY EXPERIMENTS AND SENSITIVITY ANALYSIS

A. The Policy Experiments	107
1. Exchange Rate Adjustment	107
2. Fiscal Adjustment	107
3. Monetary Adjustment	107
B. Simulation Results	107
1. Exchange Rate Adjustment	107
2. Fiscal Adjustment	108
3. Monetary Adjustment	109
C. Sensitivity Analysis	109
1. Impact of Inflation on Investment (figure 5.2.)	109
2. Impact of Inflation on Capital Outflight (figure 5.3)	109
3. Role of Flexibility in the Financial system (figure 5.4)	110
4. Constant Expectations of Inflation	110

Chapter VI

THE WELFARE AND POLITICAL FEASIBILITY INDICES

A. Poverty Indices	119
B. Political Feasibility Index	120
1. Definition of Interest Groups	120
2. Objective Function of Each Pressure Group: Real Utility Effects	121
3. Determinants of the Share of Influence of Each Pressure Group	121
4. Objective Function of the State	125
5. Degree of Relative Autonomy of the State	125
6. Basis for Measurement of the \dot{y}_t and \dot{G} Effects of the Crisis: The Politics of Persuasion and Delay	126
7. Choice of Discount Rate in Weighting Intertemporal Effects	126
8. Calibration of the Index on Known Policy Outcomes	126

Chapter VII

**EFFICIENCY, WELFARE, AND POLITICAL IMPLICATIONS
OF ALTERNATIVE APPROACHES TO STABILIZATION**

A. The Experiments	129
B. The Role of Investment	129
C. Alternative Fiscal Instruments	130
D. The Politics of Delay	131
E. The Role of Economic Flexibility	132
F. The Political Economy of Persuasion	132
G. The Political Economy of Compensation	133
H. Sectoral Differentiation of Poverty	134

Annex to Chapter VII

A REAL VERSION OF THE CGE

A. Specification of the Model	149
B. The Policy Scenarios	150

Chapter VIII

CONCLUSIONS: STABILIZATION, ADJUSTMENT, AND EQUITY

A. Direct and Indirect Approaches to Poverty Reduction	163
B. General Implications for the Management of Stabilization with Equity	164
1. Structural Features of the Economy and Role of the State	164
2. Policy Instruments for Stabilization	166
3. Managing the Political Feasibility of Stabilization	167
