

# Kidney / Niere

With contributions by

R. Bauer	P. Georgi	D. Longwitz
R. P. Baum	J. Happ	F. D. Maul
R. Berberich	R. Heckemann	A. Mekkawy
H. J. Biersack	A. Hertel	W. Müller-Schauenburg
M. D. Blaufox	G. Hör	H. W. Pabst
W. Brandau	D. Jonas	J. B. Rosman
K. E. Britton	W. Kaiser	K. Schneider
B. Bubeck	W. Kramer	A. Simrock
L. R. Chervu (†)	B. Krause	H. Stettmeier
E. van de Flierdt	H. R. Langhammer	J. Wolf

Volume Editors

Gustav Hör, Frankfurt · Hans Werner Pabst, München

With the assistance of A. Hertel and R. Senekowitsch-Schmidtke

With 166 figures and 49 tables

Gustav Fischer Verlag · Stuttgart · Jena · New York · 1996

# Contents

<b>Introduction</b> . . . . .	1	2.1.5	Renal plasma flow agents . . .	30
G. Hör, H. W. Pabst		2.1.6	Agents for measurement of renal blood flow . . . . .	33
<b>1 Nephrology</b>		2.1.7	Assessment of differential renal function . . . . .	34
<b>1.1 Fundamentals of Clinical Physiology and Pathophysiology</b> . . . . .	5	2.1.8	Renal autoradiography . . . . .	35
J. B. Rosman		2.1.9	Absorbed radiation dose . . . . .	38
1.1.1 Introduction . . . . .	5	<b>2.2 New Radiopharmaceuticals</b> . . . . .	51	
1.1.2 The glomerulus . . . . .	6	W. Brandau		
1.1.2.1 Glomerular pathophysiology . . . . .	7	2.2.1 Introduction . . . . .	51	
1.1.3 The tubular system . . . . .	8	2.2.2 Tc-99m-MAG <sub>3</sub> . . . . .	51	
1.1.3.1 The tubuloglomerular feed- back system . . . . .	8	2.2.3 New developments . . . . .	53	
1.1.3.2 Sodium transport . . . . .	8	<b>3 General Review of Technology, Instrumentation and Methods</b>		
1.1.3.3 Calcium- and phosphate trans- port . . . . .	9	<b>3.1 Functional Imaging of the Kidneys</b> . . . . .	59	
1.1.3.4 Potassium transport . . . . .	10	K. E. Britton		
1.1.3.5 Acid-Base balance . . . . .	11	3.1.1 Introduction . . . . .	59	
1.1.4 Physiology of concentration and dilution . . . . .	12	3.1.2 Relative uptake function . . . . .	59	
1.1.5 The kidney as an endocrine organ: physiology and pathophysiology . . . . .	13	3.1.3 Renal transit times . . . . .	62	
1.1.5.1 Catecholamines . . . . .	13	3.1.4 Functional images . . . . .	63	
1.1.5.2 Atrial natriuretic peptide . . . . .	14	3.1.5 The parenchymal transit time index . . . . .	66	
1.1.5.3 Antidiuretic hormone (ADH or Arginine Vasopressine) . . . . .	14	3.1.6 Patient preparation and tech- nique . . . . .	68	
1.1.5.4 Erythropoietin (EPO) . . . . .	14	3.1.7 Renovascular disorder . . . . .	68	
1.1.5.5 The Renin-angiotensin- aldosterone system . . . . .	14	<b>3.2 Functional Imaging of Ureter Kinetics</b> . . . . .	72	
1.1.5.6 Kinins-bradykinins . . . . .	15	W. Müller-Schauenburg, W. Kaiser		
1.1.5.7 Prostaglandins . . . . .	15	3.2.1 Introduction . . . . .	72	
<b>2 Radiopharmacy</b>		3.2.2 Physiological remarks . . . . .	72	
<b>2.1 Radiopharmacy of Renal Imaging and Clearance Agents. Autoradiography and Dosimetry of Renal Agents</b> . . . . .	19	3.2.3 Method . . . . .	73	
L. R. Chervu †, M. D. Blaufox		3.2.4 Motility patterns and their meaning . . . . .	75	
2.1.1 Introduction . . . . .	19	3.2.5 Final remark . . . . .	77	
2.1.2 Pertinent physiology of renal function . . . . .	20	<b>3.3 SPECT in Renal Diseases</b> . . . . .	80	
2.1.3 Agents for renal morphology and renal perfusion . . . . .	21	H. J. Biersack, A. Mekkawy		
2.1.4 Agents for the measurement of glomerular filtration rate . . . . .	27	3.3.1 Introduction . . . . .	80	
		3.3.2 Instrumentation and principles of SPECT . . . . .	80	
		3.3.3 Radiopharmaceuticals . . . . .	81	
		3.3.4 Current clinical applications of SPECT in renal diseases . . . . .	81	

<b>3.4 Partial Shielded Whole-Body-Clearance</b> . . . . .	85		
R. Berberich			
3.4.1 Clearance methods . . . . .	85		
3.4.2 Measurements with the partially shielded whole-body counter . . . . .	85		
3.4.3 Simultaneous measurement of I-131-hippurate and Tc-99m-DTPA clearance . . . . .	86		
3.4.4 Measurements with the Anger-camera and computer system . . . . .	88		
3.4.5 Clearance determination from the fall of plasma activity . . . . .	89		
3.4.6 Clinical applications . . . . .	90		
<b>3.5 Compartment Clearance</b> . . . . .	96		
I. Wolf			
3.5.1 Introduction . . . . .	96		
3.5.2 Compartment analysis . . . . .	96		
<b>3.6 Magnetic Resonance Imaging: Technical Considerations</b> . . . . .	101		
R. Bauer, H. Stettmeier			
3.6.1 Development . . . . .	101		
3.6.2 Recording technique . . . . .	102		
3.6.3 Spectroscopic methods . . . . .	110		
<b>4 Clinical Application</b>			
<b>4.1 Static Renal Scintigraphy</b> . . . . .	117		
E. van de Fliedt, H. R. Langenhammer			
4.1.1 Introduction . . . . .	117		
4.1.2 Principles of the method . . . . .	117		
4.1.3 Diagnostic techniques . . . . .	120		
4.1.4 Radiation exposure . . . . .	120		
4.1.5 Indications for static renal scintigraphy . . . . .	120		
4.1.6 Discussion of clinical value in comparison to other diagnostic tools . . . . .	122		
<b>4.2 Sequential and Functional Scintigraphy: Using Tc-99m-DTPA in the Historical Context</b> . . . . .	125		
G. Hör, A. Simrock, A. Hertel			
4.2.1 Urinary tract obstruction . . . . .	125		
4.2.2 Renal transplantation . . . . .	128		
4.2.3 Renal vascular diseases . . . . .	131		
4.2.4 Acute and chronic renal failure . . . . .	133		
4.2.5 Reflux . . . . .	136		
4.2.6 Inflammatory diseases of renal parenchyma and pathways . . . . .	136		
4.2.7 Renal tumors . . . . .	138		
4.2.8 Renal trauma . . . . .	139		
4.2.9 Renal ptosis . . . . .	139		
<b>4.3 Technetium-99m-MAG<sub>3</sub>: The Substitute for Radioiodinated Hippurate in the Evaluation of Renal Function</b> . . . . .	151		
B. Bubeck, P. Georgi			
4.3.1 Introduction . . . . .	151		
4.3.2 Physiological fundamentals . . . . .	151		
4.3.3 Clinical validation . . . . .	152		
4.3.4 Principles of the method and diagnostic techniques . . . . .	154		
<b>4.4 Use of Tc-99m-MAG<sub>3</sub> for Clinical Evaluation of Renal Function and Disorders</b> . . . . .	161		
A. Hertel, G. Hör			
4.4.1 Introduction . . . . .	161		
4.4.2 Principles and diagnostic techniques . . . . .	161		
4.4.3 Frankfurt University Nuclear Medicine Department's imaging procedure . . . . .	162		
4.4.4 Clinical results . . . . .	162		
4.4.5 Evaluation of MAG <sub>3</sub> and future perspectives . . . . .	170		
<b>4.5 Renal Imaging with Skeletal Imaging Agents</b> . . . . .	173		
J. Happ, G. Hör			
4.5.1 Physiological fundamentals and principles of the method . . . . .	173		
4.5.2 Clinical evaluation and discussion . . . . .	173		
<b>4.6 Renal Tumor Imaging</b> . . . . .	180		
R. P. Baum, G. Hör			
4.6.1 Introduction . . . . .	180		
4.6.2 Epidemiology and etiology . . . . .	180		
4.6.3 Pathologic classification and staging . . . . .	180		
4.6.4 Prognosis . . . . .	181		
4.6.5 Diagnostic techniques . . . . .	182		
4.6.6 Differential diagnosis of space-occupying lesions in the kidney . . . . .	184		
4.6.7 Clinical evaluation and discussion . . . . .	185		
4.6.8 Therapy of renal cancer . . . . .	187		
4.6.9 Future perspectives . . . . .	188		

4.7	<b>Renal Imaging with Inflammatory Imaging Agents</b> . . . . .	191	4.10.2	Patients and methods . . . . .	230
	F. D. Maul, G. Hör		4.10.3	Results . . . . .	231
4.7.1	Introduction . . . . .	191	4.10.4	Discussion . . . . .	231
4.7.2	Fundamentals of pathology and pathophysiology . . . . .	191	4.11	<b>Renal Pathology in Skeletal Imaging: An Urologist's Point of View</b> . . . . .	234
4.7.3	Radiopharmacy and instrumentation . . . . .	193		W. Kramer, D. Jonas	
4.7.4	Clinical application . . . . .	194	4.11.1	Introduction . . . . .	234
4.7.5	Complementary role of nuclear medicine functional studies and radiology . . . . .	198	4.11.2	Technical procedure . . . . .	235
4.8	<b>Ultrasound Imaging of the Adult Genito-urinary System</b> . . . . .	201	4.11.3	Results . . . . .	235
	D. Longwitz, R. Heckemann		4.12	<b>Magnetic Resonance Imaging: Clinical Applications</b> . . . . .	237
4.8.1	Introduction . . . . .	201		R. Bauer, H. Stettmeier, H. W. Pabst	
4.8.2	Malignant tumours of the renal parenchyma . . . . .	202	4.12.1	Anatomy and morphology of the kidneys . . . . .	237
4.8.3	Benign tumours of the renal parenchyma . . . . .	204	4.12.2	Study protocol of the kidneys and the adrenal glands . . . . .	242
4.8.4	Inflammations of the kidney . . . . .	205	4.12.3	MRI in various pathologies of the kidneys . . . . .	243
4.8.5	Renal pelvis and ureter . . . . .	206	4.12.4	Indications of MR investigations of the kidneys . . . . .	252
4.8.6	Adrenal glands . . . . .	208	4.12.5	The adrenal glands . . . . .	252
4.8.7	Retroperitoneal masses . . . . .	209	4.12.6	P-31-Spectroscopy of the kidneys . . . . .	256
4.8.8	Urinary bladder . . . . .	209	4.12.7	Future trends . . . . .	256
4.8.9	Prostatic gland . . . . .	211	4.13	<b>Renal Positron-Emission-Tomography (PET)</b> . . . . .	261
4.9	<b>Sonography of the Kidneys and the Urinary Tract in Childhood</b> . . . . .	217		B. Krause, G. Hör	
	K. Schneider		4.13.1	Introduction . . . . .	261
4.9.1	Introduction . . . . .	217	4.13.2	Physiological and pathophysiological fundamentals . . . . .	261
4.9.2	Examination technique and section planes . . . . .	217	4.13.3	Principles of the methods . . . . .	261
4.9.3	Normal findings and variants . . . . .	218	4.13.4	Results . . . . .	263
4.9.4	Anomalies of the kidney position . . . . .	218	4.13.5	Clinical evaluation and discussion . . . . .	263
4.9.5	Malformations of the urinary tract . . . . .	219	4.13.6	Evaluation of the method comparing to other methods . . . . .	264
4.9.6	Obstructions of the urinary tract . . . . .	220	5	<b>Functional Imaging in Renal Diseases – Outlook</b> . . . . .	269
4.9.7	Vascular diseases . . . . .	222		G. Hör, A. Hertel	
4.9.8	Nephropathies . . . . .	222	5.1	Radiopharmaceuticals . . . . .	269
4.9.9	Inflammations . . . . .	222	5.2	Methods, instrumentation, software . . . . .	269
4.9.10	Tumors of the kidney and the urinary tract . . . . .	224	5.3	Therapy control . . . . .	270
4.9.11	Nephrolithiasis . . . . .	225	5.4	Extracorporeal shock wave therapy (ESWT) . . . . .	270
4.9.12	Renal trauma . . . . .	225	5.5	Transplantation . . . . .	270
4.10	<b>Anti-CEA-Immunoscintigraphy Detects Bladder Cancer Metastases</b> . . . . .	228	5.6	Renal function in conjunction with other organs . . . . .	270
	W. Kramer, R. P. Baum, G. Hör, D. Jonas		Subject Index . . . . .	273	
4.10.1	Introduction . . . . .	228
