

Stefan Hochrainer

# **Macroeconomic Risk Management Against Natural Disasters**

Analysis focussed on governments  
in developing countries

With a foreword by o. Prof. Dr. Georg Pflug

Deutscher Universitäts-Verlag

# Contents

<b>1</b>	<b>Introduction</b>	<b>1</b>
1.1	Background . . . . .	1
1.2	Research objectives . . . . .	4
1.3	Outline . . . . .	7
<b>2</b>	<b>Natural disaster risk</b>	<b>9</b>
2.1	An introduction to the concept of risk . . . . .	9
2.2	Risk in the natural disaster context . . . . .	14
2.2.1	Hazard . . . . .	15
2.2.2	Elements at risk . . . . .	16
2.2.3	Vulnerability . . . . .	17
2.2.4	Resilience . . . . .	19
2.3	Definitions and consequences of disasters . . . . .	20
2.4	An integrated risk management approach . . . . .	25
<b>3</b>	<b>Economic impacts - Statistical analysis</b>	<b>29</b>
3.1	Statistics of losses . . . . .	30
3.2	Macroeconomic effects: A literature review . . . . .	33
3.3	A sample of natural disaster events . . . . .	39
3.4	Methodology . . . . .	42
3.5	Empirical analysis of macroeconomic effects . . . . .	45
3.5.1	Gross domestic product . . . . .	45
3.5.2	Agriculture . . . . .	51
3.5.3	Production . . . . .	53
3.5.4	Service . . . . .	55
3.5.5	Exports . . . . .	57
3.5.6	Imports . . . . .	58
3.5.7	Government consumption . . . . .	60
3.5.8	Summary . . . . .	62
<b>4</b>	<b>Natural disaster risk management measures</b>	<b>65</b>
4.1	Risk financing instruments: An overview . . . . .	66
4.2	Financial risk management in the private sector . . . . .	68
4.3	Financial risk management in the public sector . . . . .	70

4.3.1	Governments risk exposure . . . . .	71
4.3.2	Governments risk preferences . . . . .	73
4.3.3	Risk management strategies . . . . .	74
<b>5</b>	<b>Financial resilience of the public sector</b>	<b>81</b>
5.1	Ex-post financing options for governments . . . . .	82
5.2	Ex-ante instruments for governments . . . . .	84
5.2.1	Mitigation . . . . .	85
5.2.2	Catastrophe reserve fund . . . . .	89
5.2.3	Insurance and reinsurance . . . . .	90
5.2.4	Contingent credit . . . . .	98
5.2.5	Catastrophe bonds . . . . .	98
5.2.6	Summary . . . . .	102
<b>6</b>	<b>Catastrophe modeling and simulation</b>	<b>105</b>
6.1	Introduction . . . . .	106
6.2	Objectives . . . . .	116
6.3	Modeling approach . . . . .	118
6.3.1	Scenario module and sampling module . . . . .	121
6.3.2	Experiment module and portfolio module . . . . .	123
6.3.3	Economic module . . . . .	127
6.3.4	Ex-ante instruments module . . . . .	130
6.3.5	Ex-post instruments module . . . . .	132
6.3.6	Premium module: The pricing of XL-insurance contracts . . . . .	135
6.3.7	Uncertainty module . . . . .	139
6.3.8	Measuring financial vulnerability . . . . .	140
6.3.9	User interfaces, implementation and policy issues . . . . .	141
<b>7</b>	<b>Case Studies</b>	<b>145</b>
7.1	Honduras . . . . .	146
7.1.1	Financial vulnerability . . . . .	148
7.1.2	Macroeconomic risk management strategies . . . . .	151
7.1.3	Summary . . . . .	154
7.2	El Salvador . . . . .	156
7.2.1	Financial vulnerability . . . . .	157
7.2.2	Macroeconomic risk management strategies . . . . .	159
7.2.3	Summary . . . . .	161
7.3	Colombia . . . . .	163
7.3.1	Financial vulnerability . . . . .	164
7.3.2	Macroeconomic risk management strategies . . . . .	165
7.3.3	Summary . . . . .	168
<b>8</b>	<b>Conclusion and future work</b>	<b>169</b>
