

# Design for Human Ecosystems

LANDSCAPE,  
LAND USE,  
AND NATURAL  
RESOURCES

John Tillman Lyle

ISLAND PRESS  
Washington, D.C. • Covelo, California

# CONTENTS

Foreword	v
Preface	vii
Introduction: Where Mind and Nature Meet	1
<b>Scales of Concern</b>	<b>23</b>
A Hierarchy of Scale	24
The Region	43
Subcontinents and the Whole Earth	76
Plan Units and Smaller Landscapes	88
<b>Design Processes and Methods</b>	<b>125</b>
Stages and Themes of Design	126
Stage of Romance: Inception	136
Stage of Precision: Information and Models	144
Stage of Generalization: Possibilities, Predictions, Plan	161
<b>Modes of Ecological Order</b>	<b>193</b>
Foundations of Ecosystem Design	194
Structure: The Roles of Plants	200
Structure: Design for Animals	213
Function: Controlling Material and Energy Flows	228
Location: Patterns and Landscape Suitability	241
Location: Impact Prediction	260
A New Era of Design	264
References	265
Index	270
